BOARD

Foreword

THIS book is intended to serve as a compendium of friendships, a reference book of pleasant places, an encyclopedia of college reminiscences. We hope that it may please you now, while its contents are up to date, but remember the satisfaction which you obtain from the first reading will be surpassed many times by the pleasure of reading this book in future years, years in which memories of college days are dimmed by the hand of time. We have tried to be critical without being caustic, funny without being boresome. Regard this Index not chiefly as a directory of 1915, but rather as a tribute of the class of 1915 to Aggie, our Alma Mater.

To

William Lawson Machmer

Who began his career at M. A. C. with us and who, by
his friendship, ability as a teacher, and sterling
qualities, has earned a permanent place
in our esteem and affections,
we dedicate this
book

Mr. L. Machner

William Lawson Machmer

APPY is that man who has a natural mathematical bent, for his college life is peace. Unfortunately mathematical minds are rare. To most of us, the way of the theory of exponents is a Valley of Dry Bones. Great is that teacher who can bestow the breath of life upon the dry bones of mathematical formulæ and make them living table companions. To "get by" in mathematics is a worthy achievement, to make algebra lovable is the work of a master teacher.

William Lawson Machmer, son of a Pennsylvania farmer, was born thirty years ago at Moselem, Berks County, Pennsylvania. (In some respects a dedication greatly resembles an obituary notice.) He began life early and grew up in the midst of a house full of brothers and sisters — the usual fortunate fate of children in the farm households of the Keystone State.

At fifteen he was graduated from the public schools, and three years later from the Keystone State Normal School. Whether he fell in love with mathematics at this time is not recorded; otherwise he made a good record — was chosen class president, president of the Keystone literary society and things of that sort.

He was now a full-fledged teacher and for two years labored joyously in the ungraded schools of Perry township. Meantime he developed aspirations and in 1903 re-entered the Normal school at Kutztown and began preparations for college. In 1904 he entered Franklin and Marshall College, Lancaster, Pennsylvania, and three years later was graduated, easily first in scholarship in a class of forty-five; incidentally he was elected to Phi Beta Kappa. To most of us this isn't a bad record, even for a bookworm. But Machmer, 1907, was interested in almost every phase of college life — President of the college Y. M. C. A., Secretary of the Intercollegiate Oratorical Union, First Assistant College Librarian and numerous other college activities.

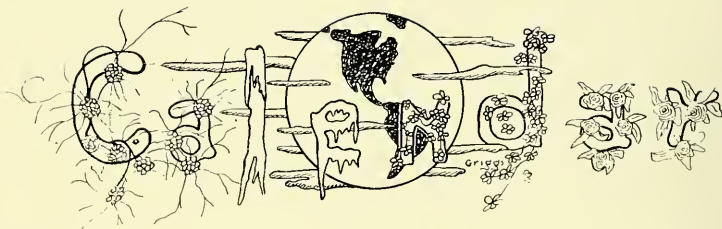

On the completion of his college course, he was elected head of the department of physics and mathematics in Franklin and Marshall Academy, a position which he held until 1911, when he was called to Massachusetts Agricultural College as instructor in mathematics. While at the academy he earned his Master's degree in mathematics and sociology, and more recently he has begun some advanced graduate work in Columbia University.

An upstanding Christian gentleman, a clear thinker, and a scholar of no mean ability, Mr. Machmer is known and admired for his wholesome optimism, his sympathetic friendship, and his unquestioned ability as a teacher. His four years in the academy gave him a fine understanding of the difficulties confronting the average lower classman; his intelligent sympathy, absolute fairness, and genuine interest in the men individually have won for him an enviable hold upon their confidence and respect.

Mr. Machmer is a man both faculty and students want to keep. He fills well his place in town, church and college. More than that he is loyal and ambitious for the department with which he is connected; his new course in applied mathematics is a distinct innovation. He is thoroughly alert to the needs of his men, and those who know him predict other constructive work to follow.

. We are proud to know you, Mr. Machmer.

ALEXANDER E. CANCE.

THE CLASSES

“Boost Old Aggie”

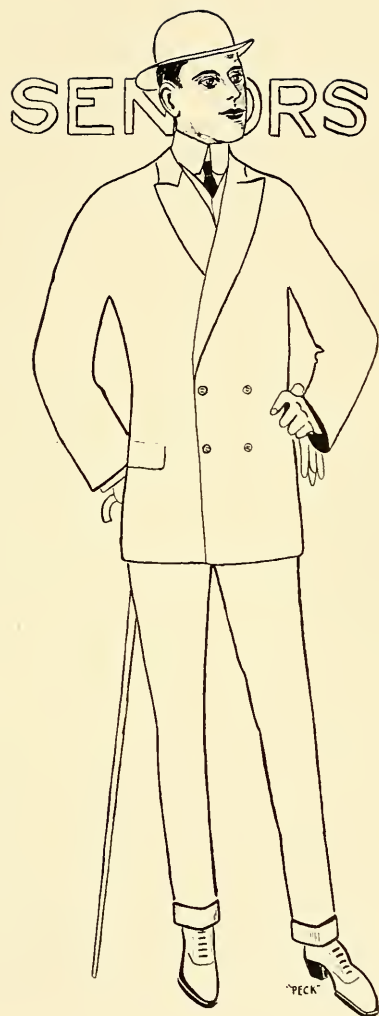

In the ages that existed
 Long before us in the past,
There were men who conquered nations,
 Men who set the world aghast;
There were men who fought injustice,
 Men who broke the bonds of slaves,
Men who gave their lives for Freedom
 Left forgotten in their graves.

Never was an age more glorious,
 For the deeds of noble men;
Never was a time more needy,
 For a hero now and then.
Men are needed for a service
 In this wondrous world of ours:
Men of might and men of action,
 Men of will and men of power.

Like the sea that roars and thunders,
 In the blackest of the night;
Like an oak that stands defiant,
 While the storm is at its height;
Like a soldier stripped for battle,
 Rushing forward in the fight;
So this age seeks men of action,
 Men who dare to do the Right.

Time is nearing very swiftly,
 When we, too, will have our chance.
This great age alone will judge us,
 In our struggle to advance.
Should we meet defeat or vict'ry,
 On the battlefield of Life,
May we never lose our courage,
 But be men, thruout the strife.

1914 History

CAN it be, Oh Aggie, that three years have passed since you manned our class ship, "1914," and sent it out over the ever-changing sea? Three histories have we given you; tales of victory, persistence and loyalty, and now we present our last, the most loyal of them all.

We are proud of the past only as it foreshadows the future. We have stood for Aggie's best traditions, yet never has a class shown more originality.

Three events stand out clearly during the last year: Our Prom, our tree-planting and our Junior Day. Who shall say that our Junior Day will ever be forgotten, or that the Prom was not a triumph? As for our tree, the only reason we can think of that it should die, was out of consideration for us, that we might have another "tree celebration."

As for the future, we are looking ahead confidently, and are eager to show our alma mater that our four years' experience has made good sailors of us.

Finally, let us be proud to have given Old Mass'chusetts our own stirring war-cry; now and ever after, let us join the front ranks to "Boost Old Aggie."

1915 History

THE following consists of extracts from the Logbook of the Good Ship "1915" cruising from Prep-school toward Life on the Pleasant Waters of College.

We began our voyage in September, 1911, and put to sea with a crew of one hundred and seventy. Altho our men were landlubbers, they were not long in learning the ropes. Some were dissatisfied with the mess the cook provided, but soon succumbed or became hardened to it. We had not been long at sea when we discovered that there were other ships frequenting these waters. The old bark "1912," we saw but little. Her dignified crew looked with indifference upon such newcomers as we. But we sailed much with the good ship "1913" and found her crew jolly men of worth. The third ship we sighted was the "1914," a clumsy craft manned by men whose ignorance of seamanship was exceeded only by their presumption in attempting to teach our men the art of sailing. We engaged in several races with this vessel, and came out very creditably each time, usually winning. This year, we weathered several heavy storms, some of our men being lost in February, and some swept away in June. It was in May that our men had a little frolic which the piratical crew of "1914" tried in vain to prevent. They attempted to shanghai some of the ship's officers, but a hand-to-hand fight ensued, and "1914" was easily worsted.

When we set sail after our first summer's shore leave, we encountered a new vessel, the "1916," a vessel so lately launched that the green paint on her sides was hardly dimmed. Her crew knew nothing of seamanship, and she must surely have gone to the bottom had we not taken pity on them and taught them some of the rudiments of the nautical art. Even then, several of her men sank beneath the water. It was during this second year's cruise that we met our worst storms, several men being carried overboard by the mighty waves which swept our deck. And once in the water, there was no hope for them, for the region through which we were passing abounded in merciless old sharks. Toward the end of the year, our men effectually spoiled a frolic which the crew of "1916" had planned. Several of our men put off from the ship in a small boat, and captured their ringleaders.

We returned from our summer shore leave at the beginning of our third year, a band of resolute, skillful men, realizing our weaknesses but confident of our powers. We have a new vessel cruising with us, the "1917," the largest and one of the most promising which has yet come upon these waters. Her crew is hardly on their sea legs yet, but once become accustomed to each other and having found their leaders, we expect much of them. Our own men through two years of association in joy and hardship have formed friendships which will endure long after our cruise is ended. Sooner than we now appreciate, the time for us to separate will come, but may the intervening months be filled with good fellowship such as will bind us even more closely together.

Agriculture.

Donald Hopkins Cande, "D"
Pittsfield

87 Pleasant Street; $\Sigma \Phi E$; General Agriculture; Class Vice President (2).

We now present to the public, a man famous for his ingenuity. Never will we forget the "Candy" tactics used at the historic class battle of our first year. But now this staid politician is content to sit idly by and while away the time smoking his "Jimmy pipe" and studying Mexican athletics.

Alexander Baxter Chase, Jr.
West Barnstable

Clark Hall; Agriculture.

"Alec" comes from the barren sand hills of Cape Cod, and why agriculture should attract him, we do not understand. He is characterized by his shoe-brush hair-cut and by his studious, deeply thoughtful manner. He either fitted with the Blake or could not keep step, for he was given an office job, and is now the stern taskmaster of "Percy" and "Uppie." "Alec's" good nature and Yankee wit are much appreciated by all who know him.

Ellis Fred Clark, "Pinkie"
Granby, Conn.

College Store; Θ X; Agriculture; Fraternity Conference; Advertising Manager 1915 INDEX; Assistant Manager Track.

When "Pinkie" emerged from the pupa stage and was still soft, he must have absorbed enough color from the Connecticut red sandstone to earn him his nickname. Funny they should stand him on his head, though, at such a tender age. Dwelling in the lower regions of North College has developed real "devilish" traits in this young man. He will now calmly pass bottled stuff across the counter to anyone who has the price.

Waldo Cleveland Baldwinsville

Veterinary Laboratory. Agriculture.

When it comes to good nature, "Grover" has no superior. His face is always one vast substantial grin. He is considerably addicted to the use of the weed, and during the week of the world's series was often seen smoking the best cigars. This apparent extravagance was really a silent tribute to his own abilities as a sporting man. "Grover's" sporting blood induced him to take up his residence in the veterinary laboratory, and he is now an authority as to the most up-to-date methods of rabbit feeding. His healthy appetite for food and copious repository for same, have earned for him the somewhat undignified pseudonym of "Bucket."

Sumner Alvord Dole

Shelburne

11 North College; B K Φ; Agriculture; M. A. C. C. A.; Rope Pull (1); Class Football (1); Varsity Football (2); Class Basketball (2); Class Hockey (2); Class Baseball (2); Class Captain (2).

"Dolly" is an all-around athlete. He plays football, baseball, basketball, and hockey. According to his own account, he is a jack-at-all-trades and good at none, but his fine two years' record in varsity football disproves his own statement. He begins his strenuous week's work by teaching a Sunday School class and visiting Mt. Holyoke, thus keeping his nerve as well as his muscles in constant training. He was one of the Sophomores rash enough to elect geology, and the resulting situation induced him to study geology during the summer preceding his Junior year. We learn by mistakes!

Richard Fuller

Salem

South Dormitory; Φ Σ K; Agriculture; Rope Pull Team (2).

Φ K Φ is getting so tight with their bids that Dick is becoming worried. Dick's eagerness to raise his marks caused Doc Peter's remaining hairs to grow gray, and as a member of our kicking committee he did valiant work in inducing Dr. Gordon to ease up a bit. In Fuller, we have a rare combination; a good athlete, a good student, and a good fellow. Dick was somewhat handicapped when he came to us, but his good work soon put him among the leaders.

Roderick Chesley Hall Worcester

B K Φ House; B K Φ; Agriculture.

1916 should know this man, for he played an important part in the making of their history. "Rod" is one of the Juniors who last spring kidnapped the innocent and trusting President of the Freshmen, thereby spoiling their banquet. This unkind act has caused him many pangs of conscience, for he is by nature a very gentle and accommodating fellow. He does not let books interfere with his education, but has never been listed among the "also rans" in any subject. As a woman hater, "Rod" ranks among the first.

Daniel James Lewis, "Dan" Hanson

K Σ House; K Σ; Agriculture; Roister Doisters; Class President (1); Dramatics (1); Class Historian (2); Chairman Sophomore-Senior Hop Committee; Manager Roister Doisters (3); Editor-in-Chief 1915 INDEX; Fraternity Conference (3).

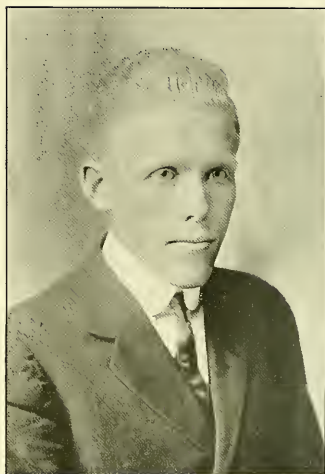

The pen may be mightier than the sword, but we doubt it, especially when we consider "Danny's" facility in handling the former and watch him get tangled up in the latter. Too bad swords don't come in "youths' and misses'" sizes, as well as men's. "Danny" believes firmly in Wilson, Prohibition, Woman Suffrage, Foreign Missions, Higher Education for the Masses, Eugenics, and, we were going to add, Religion. Therefore, we all look up to him.

Irving B. Lincoln, "Hank"
Glens Falls, N. Y.

94 Pleasant Street; Agriculture; Glee Club; Burnham Eight (1, 2); Class Cross Country (2); Class Rope Pull (1, 2); Public Speaking Council (2, 3); Class Sergeant-at-Arms (2); Class Track (1, 2).

"Hank the Hermit," press agent and advertising manager for the Lotus Quartette; globe trotter; prexy's right hand(y) man; class strong man; class orator; confirmed bachelor; Freshman rope-pull coach and adviser. "Men may come and men may go, but we could (like 'Hank') go on forever" naming this man's accomplishments, but due regard for his modesty causes us to desist.

Hubert Verner Marsh, "Blondie"
Deerfield

B K Φ House; B K Φ; Agriculture; Stockbridge Club; Assistant Business Manager 1915 INDEX.

Here we have one of our most shining lights, especially when the golden rays of "Old Sol" strike that peroxide dome of his. This man's ability to smile even under such trying conditions as he meets trying to collect class taxes, has endeared him to the hearts of us all.

Eldon Samuel Moberg, "Sam"
Brockton

7 North College; $\Lambda \Sigma \Phi$; Agriculture;
Class Treasurer (3).

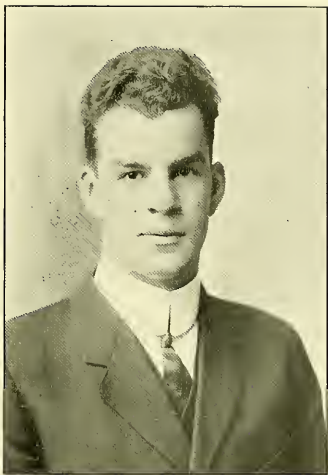

The sphinx-like inscrutability of "Sam's" countenance when he has it all ironed out, leads us to suspect that he has some ulterior motive in coming to "Aggie." Hence we deduce that, since he comes from Brockton, he has discovered that there is more money to be made in producing raw shoe material than in manufacturing or handling the finished product. Better 'fess up, "Sam," so we'll all understand each other.

Enos Jones Montague, "Monty"
Westhampton

College Store; $\Theta \chi$; Agriculture;
Stockbridge Club; Class Rope Pull
(2).

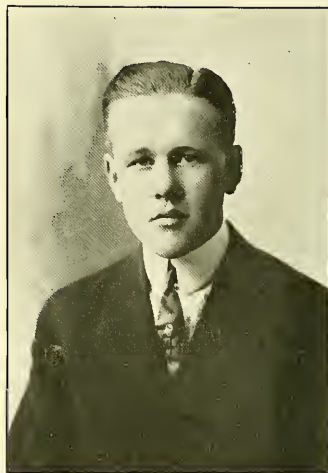

We are greatly troubled. We fear that here is a future malefactor of great wealth. We had great hopes for "Monty" till he went into the college store. No man ever passed an apprenticeship there without having his "Shylockian" characteristics developed to their fullest extent. Still, we patronize the store just as if we did not realize that we are helping him do the most disgraceful thing a man can, according to "Andy;"—die rich.

George Raymond Potter Ludlow

44 Pleasant Street; Agriculture.

Would you believe it? Potter has a girl. Moreover, their mutual devotion has progressed to the state of impending matrimony. Cheer up, George; time passes rapidly before marriage. Judging by the close relationship existing between Potter and Harvey, George should make an ideal husband. He is usually unlucky; for instance, he elected "Chesty But's" second semester physics. But like "Chet" Bishop he never worries, and takes it all as a joke.

Henry Harrison White, "Harry"
West Peabody

B K Φ House; B K Φ Agriculture; M. A. C. C. A.; Musical Association; Mandolin Club (1, 2, 3); Burnham Eight (1); Class Football (2); Class Secretary (2); Fraternity Conference (3); Chairman Junior Prom Committee.

Harry is sometimes called "The Deacon," and as is true so often, his nickname is an indication of his real character. His quiet and reserved manner has nothing of coolness in it, but rather of good wishes and justice for all. His conscientious work with the books has put him among our best students. He is well liked by all who know him, and deserves success in whatever he undertakes.

Philip Ferry Whitmore, "Phil."
Sunderland

Θ X House; Θ X; Agriculture; Stock-
bridge Club; Rifle Club; Rifle Team
(1, 2); Glee Club (1); Class Vice-
President (2, 3); 1915 INDEX Board.

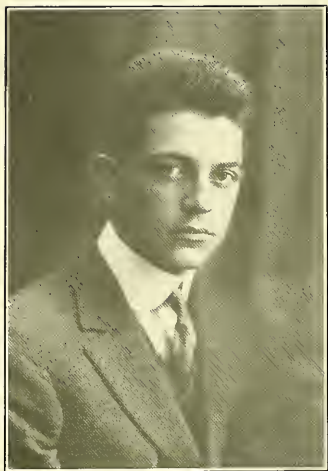

"Phil" is a regular 1915 model
Miles Standish. In that new uniform
he surely looks as if he dared "march
up to a cannon's mouth and order
a fort to surrender." He is short of
stature, just like Brother Miles was,
and, seemingly, as abashed by the
femininity. At least we have never
seen him within forty feet of anything
of the feminine gender except a cow.
Perhaps this backwardness is due to
environment — "Mac" tells us this
is a powerful factor — as we under-
stand that girls are scarce in Sunder-
land. However, we expect that two
more years at college will overcome
this impediment.

Paul Francis Whorl, "Doc"
Hyde Park

87 Pleasant Street; Σ Φ Ε; Agri-
culture.

"Doc" has been a strong '15 man
ever since he has been with us, his
activities ranging from playing foot-
ball to suggesting and enforcing
disciplinary measures for the Fresh-
men. "Doc" is quite a traveler, and
we understand that he is well known
by some of the freight brakemen. He
always seems to have plenty of tobacco
— we suppose he got it in Virginia this
summer. We think "Doc" has the
"makings" of a good farmer.

Donald Williams, "Don"

Catasauqua, Pa.

$\Lambda \Sigma \Phi$ House; $\Lambda \Sigma \Phi$; Agriculture;
Class Football (1, 2).

This husky little man came to us (F. O. B.) from Pennsylvania State as a representative of what that College can do in the way of advertisements. Although he never tires of talking of the "old place," we must let him continue because he can really produce a pretty good "line." We envy him his vim in playing football and believe that if the energy thus used could only be scientifically applied it would be more than sufficient to run an automobile. Good spirit, "Don."

Agromony

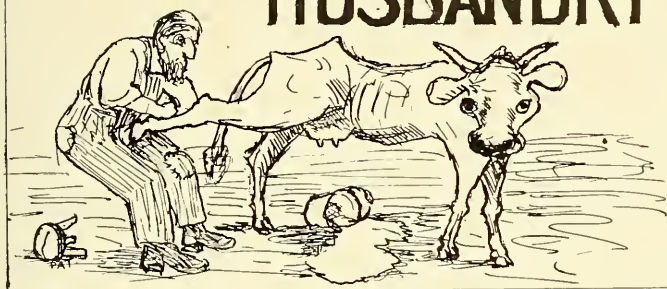

Benjamin Wellington, "Duke"
Waltham

15 Phillips Street; Agronomy.

"Duke" is one of those fellows who do a lot of work without saying much about it. Among his other activities, he finds time to teach a Sunday School class, "but the d — class keeps so late" he has "to run like H — to get the car." Ben became very familiar with the geography of Montague during Banquet Season. Our only agronomist, we expect to see "Duke" make good after he leaves here.

ANIMAL HUSBANDRY

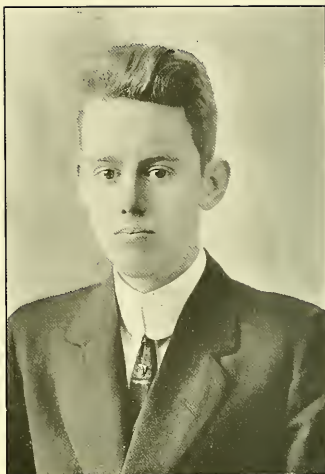

Chester Allen Bishop, "Bone"
Peterboro, N. H.

Alpha Sigma Phi House; $\Delta \Sigma \Phi$; Alpha Sigma Phi; Animal Husbandry; Class Track (1, 2); Class Football (2).

Before you, ladies and gentlemen, there stands the only true living friend that Doc Gordon has in this, our world. Since his semi-weekly trips to Hamp, last winter, "Chet" has mastered the Tango and the Kitchen Sink and other similar accomplishments, which now place him among the more elite of our class. Good work, so far "Bish," but stick to it.

Leon Blanchard Damon, "Leon"
Melrose

18 Nutting Avenue; K E; Animal Husbandry.

"Leon" was the director of the old musical club of North Prospect Street, which gave so many fine concerts. Now those days are passed, so "Leon" spends his time looking over live stock and running his beautiful limousine. "Gasoline Gus" is keen on machines and can tear down and set up any old kind of an engine. On his cattle ranch we are sure to find all the latest types of machines that are made.

George Allen Day

12 Cottage Street; Animal Husbandry; Class Track (2).

"Gawge" possesses a smile that makes the top of his head look like an island. He comes from Warren, a town far away from Boston, and his Yankee drawl is pleasant to hear, especially in a place like Aggie where there are so few Yankees. His progress was rather delayed by some of the Sophomore courses, but his spirit is good, and we trust that the red ink will soon vanish from his registration card. His consistent work as a runner has helped the class more than once.

James Edward Harper, "James"
New Haven, Conn.

K Γ Φ House; K Γ Φ; Animal Husbandry.

Who is this *dude* coming along? Oh, yes, it is "James." Upon my soul, he has another new style collar on today; more than all that, notice those pumps, that hat and tie; no wonder the Freshmen all salute him.

Russell Wilton Harvey Lanesville

44 Pleasant Street; Animal Husbandry.

Harvey was formerly employed as an undertaker, hence his interest in agronomy and general agriculture. His assiduous labors in "Aggie Industry" have led us to suspect him of having designs on the chair recently occupied by "Doc" Fay. Harvey is little, we all know, but since military honors have been forced upon him, his own sensations have caused him to think otherwise. He is some soldier. His home life is peaceful, he and Potter living together, in the utmost of domestic felicity. Harvey has shipped it over on the faculty for four semesters and we do not think they can get him now.

Ralph P. Hotis Evans Mills

21 Amity Street; Animal Husbandry.

In order to be on time for his meals at the Prospect House, this man has procured a so-called motorcycle, and the gyrations he performs with it are a constant source of wonder and admiration. He is really a great maiden-charmer. If you don't believe it, ask him. He wore a Geology bag last year so constantly and with such good grace that he escaped the final. Hotis already knows as much as most of his professors, so we expect to see him make good.

John Kirby Lewis, "Jake"
New Haven, Conn.

3 North College; K E; Animal Husbandry.

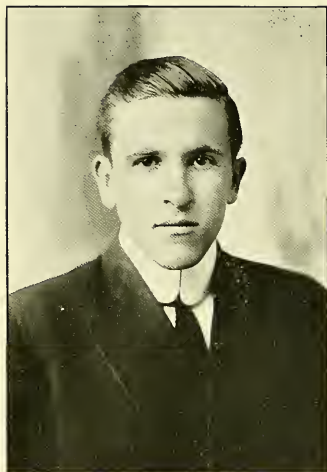

"Kirby" believes that it is better to be a big toad in a small puddle than a small one in a big puddle. Therefore he came from the town that "old Eli" made famous to be "edicated" at M. A. C. We heartily approve of his attitude and believe he chose the right place. "Jake" is an expert judge of fruit, especially the "forbidden" variety.

Richard Craig Taft, "Dick" Oxford

Θ X House; Θ X; Animal Husbandry.

If you want to know what horses won their races yesterday, ask "Dick." For the last twenty years, he has been reading about the races and looking forward to owning some fast horses some day. In spite of mathematics, "W. H." is still with us, and we are glad of it. We expect to hear from Dick in a few years as a noted stock-raiser.

Edwin C. Towne, "Ed" Waltham

$\Lambda \Sigma \Phi$ House; $\Lambda \Sigma \Phi$; Animal Husbandry; Chairman Freshmen Banquet Committee; Glee Club (1, 2, 3); Sophomore-Senior Hop Committee (2); Fraternity Conference (3); Quartette (3); Senate (3); Class President (3).

We are in doubt whether "Ed" would succeed better as an agent selling new "Topographical Maps," or judging cattle in some far land. But leaving all questions aside, "Ed" has got the "Informal" fever, and the legs of a dancing master. If anybody wants to know what a graft "Ed" has, just appear on Sundays at the Episcopal Church and hear him hold down, along with "Bill" Hatfield, the tenor section.

"PECK"

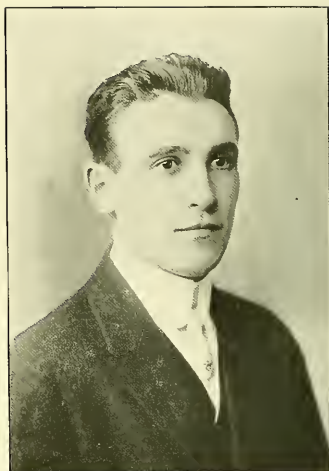

Dairying

Miguel Navas, "Mig"
Barranquilla, Colombia, S. A.

6 Phillips Street; Dairying.

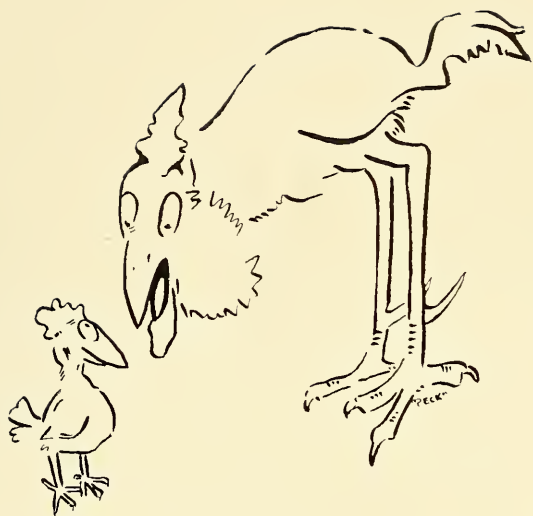

"Mig" is the South American Ambassador hailing from Colombia. Coming from a country frequently in revolution, "Mig" has the fighting spirit in his veins. But he has slipped it over many of us, for while we are drilling hard on the parade grounds, "Mig" sits at the window in the Commandant's office and enjoys it all.

Harlow Libby Pendleton, "Pendy"
Dorchester

Flint Laboratory; K E: Dairying.

"There you are — still fighting," remarks one, as he listens to "Pendy" and F. W. Marsh. These chaps are not very peaceful chums, but still enjoy one another's company. When alone, and quiet, "Pendy" finds time to write, and his journalistic tendencies are manifest. Give him time, and who knows but what he'll be an editor for some important dairy magazine?

Poultry.

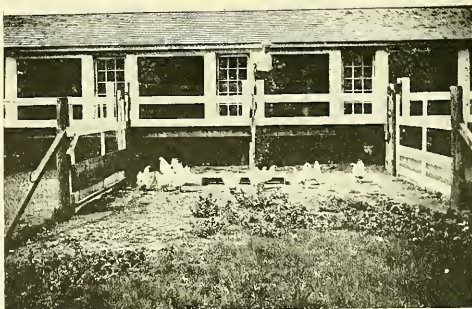

Ernest B. Parmenter

Dover

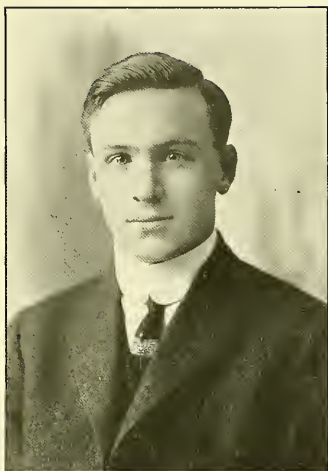

B K Φ House; B K Φ; Poultry; M. A. C. C. A.; Stockbridge Club.

If it is true that "Men of few words are the best men," then Parmenter must be one of our best men. His peaceful nature was so particularly appealed to by the docile hen that he is majoring in poultry. "Chubby's" worst hobby is the M. A. C. C. A., and if he survives that, we expect him to make a good citizen. Amherst environment evidently agrees with him, for he is developing a rotundity of person, such as is rarely seen outside of faculty meetings.

Floriculture.

Willis Henry Haskell, Jr., "Bill"
Brooklyn, N. Y.

116 Pleasant Street; Σ Φ Ε; Floriculture; Rifle Club; Mandolin Club.

This plump young Brooklynite entered Aggie with fear and misgivings, because he had heard of "Billy's" Trig and Physics. He has done nobly, however, when you stop to consider his frequent trips to Smith. "Bill" is majoring in Floriculture so he can raise his own flowers and save the expense of bouquets.

Alfred Emerson Wilkins, "Allie"
Wakefield

116 Pleasant Street; Σ Φ Ε; Floriculture; Class Treasurer (1); Dramatics (2); Florists' Club; Roister Doisters.

Here, gentlemen, is "Alfred, the Killer!" What fair maid from Smith or Holyoke who, by chance, has gazed upon this diminutive vision has not fallen a victim to his charms? We answer "None." Allie tried hard to make the express auto to Boston, but the Sophs caught him and he was forced to ride on the B. & M. — much to his disgust.

Elvin Stanley Wright, "Stan"
Worcester

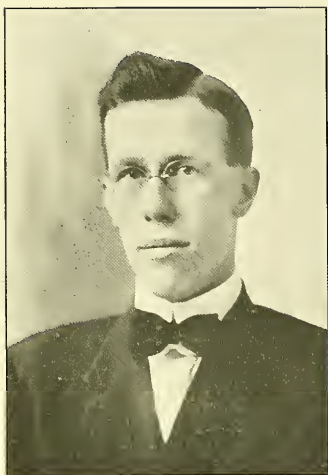

Θ X House; Θ X; Floriculture; Landscape Art Club; Forest and Gardeners Club.

"Stan" would like to have us believe that the best things come in the smallest packages. We are not all willing to admit this; but at any rate, we are glad that this particular small package is with us. Although on our lists "Stan" is the last man in everything, he is really not behind the procession, but right in it; and we all wish him success in raising those wonderful flowers about which he dreams.

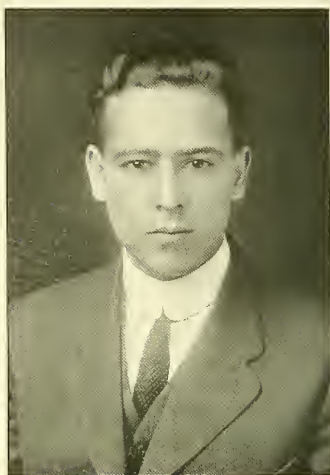

Willard Gilbert Bemis, "Bill"
North Brookfield

12 Cottage Street; Forestry; Class Cross Country (1, 2).

Knowing that North Brookfield is the place where pretty girls grow, we can't wonder at "Bill's" frequent trips home. Having developed a liking for "virgin forests" from moonlight strolls along country roads, he has decided to major in Forestry. Some day, we expect to see his name connected with those interested in the preservation of our forests. It must be nice to have had such a source of inspiration!

Daniel James Fitzgerald, "Danny"
Worcester

K P Φ House; K Γ Φ; Forestry; Catholic Club; Class Baseball (1, 2); Class Hockey (2); Class Football (2).

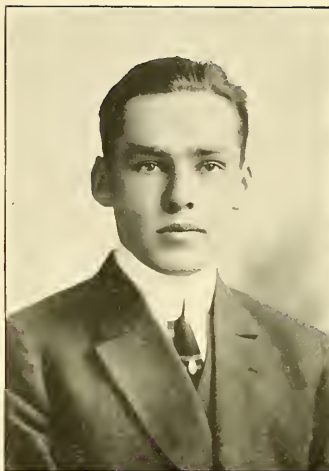

"Fitzy" is of a rather bellicose nature, doing good service to '15 in class fights as well as in class games. In spite of his more or less warlike tendencies and the stern manner he sometimes assumes, smiles often illuminate those fair brown eyes of his. Always a loyal and likable classmate, our best wishes go with Dan.

Alpha John Flebut, "Al" Amherst

27 McClellan Street; K I Φ; Forestry; M. A. C.; Catholic Club; Junior Prom Committee.

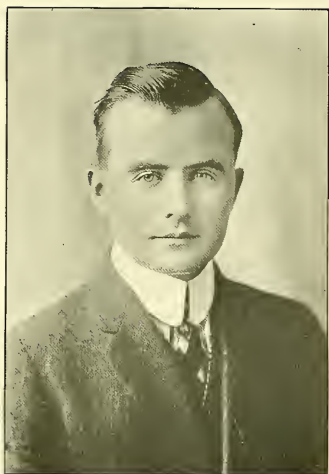

"Al" thought at one time that he would go to West Point, but as the Grange Store could not keep going with him so far away, he decided to stay in Amherst to run that, and put in the rest of his time at M. A. C. We are glad he did; and since his military craving is being satisfied by a new uniform and sword, we hope he enjoys it, too.

Robert Theodore Frost, "Frosty"
New York City

Α Σ Φ House; Α Σ Φ; Θ Ν Ε; Forestry; Class Basketball (1, 2).

"Frosty" is a smooth specimen from New York. Some have accused him of being afraid of work, but we know this is untrue, for he has sat by the hour right beside a lot of work without showing any fear whatever. He does show considerable energy on the basketball floor; and when he does settle down to work, he will make things hum with the capability we know to be his.

Owen Francis Slein, "Owen"
New Braintree

127 South Pleasant Street; Forestry;
M. A. C. Catholic Club; Class
Track (2).

Owen is a youth of nice pink complexion, fair to look upon. He also looks, and performs, very well in a track suit. He almost always looks happy, appearing savage only when called "Sleen" in English. He showed his willingness to work by electing Geology last year, so we expect to see him accomplish something.

Francis Ellwood Allen, "Deac"
Melrose

10 Allen Street; K E; Landscape.

"Deac" has been busy writing class songs ever since he came to college. The funny thing about it is that the fellows really sing them — or try hard enough. The literary ability of this gentleman is shown by the fact that he is agent for about every magazine grown in this climate. "Quiet and unassuming" seems to be his watchword. Allen is an ardent Y. M. C. A. member, Bible student, and music-lover.

Edward Russell Bartlett, "Bart"
Newburyport

3 Nutting Avenue; Σ Φ Ε; Landscape; Class Baseball (1); Class Hockey (2).

A dyed-in-the-wool, charter member of the Newburyport "gang." "Bart" can tell a "bo't" or a gun as far off as he can see — and his optic nerves are pretty long-gaited. Being a landscape man, we expect he will have a cozy little bungalow down by the shore with the walks all lined out with sea-shells and a good crop of eel-grass growing in the back yard.

Andrew Campbell Dalrymple, "Andy,"
Revere

3 McClellan Street; Landscape.

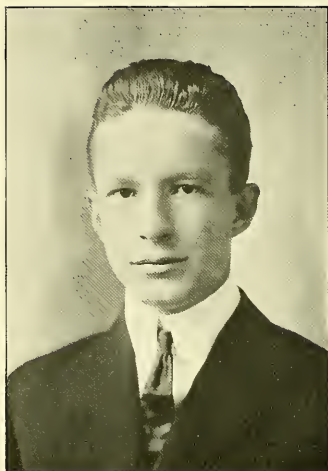

"Andy" wanted us to put in a full length portrait, but Skinny said "No sir, it'll cost too much." Therefore we have abbreviated him. Coming from the town named for the original breaker of the speed laws, one would expect "Dally" on long, racy lines. He is, so much so that "Jocko" tried to get him for a specimen of "walking stick."

Earle Sumner Draper "Hockey"
Milford

7 North Dormitory; $\Lambda \Sigma \Phi$; Landscape; Landscape Art Club. Class Debating Team (1); Burnham Declamation Eight (1); Class Hockey (1, 2); College Signal (2, 3); Assistant Manager Varsity Hockey (3); Varsity Tennis (3); Informal Committee (3).

The self-assurance of this man is justified only by one thing, he really has the goods. Dr. Gordon is the only professor who ever caught him napping and "Drape" has hardly yet sufficiently recovered from the shock in order to explain how it happened. His love for all things beautiful induced him to come to Aggie where he could study landscape gardening and be near Smith. "Drape" does all things well, except play hockey, and does nothing to excess.

Harold Davidson Grant, "Doc"
Melrose

3 McClellan Street; Landscape;
Class Basketball (1); Class Treasurer (2).

We have here the makings of another General and President. He has many of the good qualities of his illustrious predecessor. Like him, "Doc" is short and round, clear-headed, loves the army, particularly since he has his new uniform, and is satisfied with nothing but "unconditional surrender" (especially of the fair sex). He fits with the Profs, tho, and gets out of finals, thus earning a couple of weeks extra vacation every year.

Malcolm N. Goodwin, "Kippy"
Newburyport

5 North; K Σ; Landscape; Manager
Class Baseball (1); Class Secretary (3).

Ah! Here is the only original clam digger and crane hunter from Jappa. We defy any one to creep up on a rabbit, bag the game, and hide from the game warden, any quicker than he can. "Kippy" takes three drops of paregoric in his tea every evening to keep his gums soft and make his disposition better. At present, he is Manager of the third floor rough-house gang of North Dorm. Save your stale biscuits and muffins for the ammunition box! By the way, ask "Kippy" if he remembers the ride he took hidden in the ladies' rest room of a B. & M. train in May, 1912.

William Hollis Hatfield, "Bill"
Wellesley

87 Pleasant Street; K E; Landscape; Senate (3); 1915 INDEX Board; Glee Club (1, 2, 3); Sophomore-Senior Hop Committee; Choir; Class Sing Leader (2); Class Treasurer (2).

In order not to lay ourselves open to criticism for handing bouquets to ourselves, we are going to take a few faults and knock "Bill" about those. On one occasion he was heard to swear horribly. He said, "tut, tut," this being the official safety-valve on the Chevey Chase golf links. Bill also drinks — grape juice, and aspires to become a Chautauqua lecturer in order to eke out his salary, which he maintains is insufficient.

Harold G. Hyde, "Harold"
Winchendon

36 No. Prospect Street; Landscape; Rifle Club.

If any (student) body desires to know what a college walk is, just watch "Harold" move along. There is music in his step, if not in his voice. "Harold" is the faithful marker over on the range. In this work he excels, and manages to get out of drill, which most of us can not do.

Ralph Emerson McLain, "Mac"
Melrose

5 South College; Q. T. V.; Landscape; Manager Varsity Tennis (3).

We would suggest that William Travers Jerome retain "Mac" as special counsel. A man who can interpret the Freshman banquet rules in such a manner as to make a loophole through such a set as existed last year should be able to find a way to get Harry Thaw back where he belongs.

Joseph Stevens Pike, Jr., "Pecker"
Somerville

3 Nutting Avenue; Σ Φ Ε; Landscape; Class Captain (1); Captain Class Basketball (1); Captain Class Baseball (1, 2).

"Pecker" is one of the finest men of the class; he can always be relied on to use his "bean" whenever the occasion arises. Not caring a snap for the girls (?) he spends his time working and studying, a thing which most of us can not accustom ourselves to. We like this fellow and, although he has never played the part of a politician while at college, we feel sure that some time he will be some of these fellows you hear spoken of as "higher up."

James Albert Price, "Al"
New York City

South College; $\Phi \Sigma K$; $\Theta N E$; Landscape; *Signal* Board; Banquet Committee; Senate; Assistant Manager Football (3).

This worthy disciple of Tammany Hall hails from New York. He still retains his peculiar twang that we Bostonians notice. His executive ability manifested itself early in his college course, and he now is entertained by Dr. Brides and his warriors on the football trips.

Paul Whitney Rhoades, "Dusty"
Malden

66 No. Pleasant Street; Landscape; Class Treasurer (1); Manager Class Track (2); Landscape Art Club.

"Dusty" became famous as an extractor of coin, filling the office of Treasurer during his Freshman year. Having been a scarlet fever victim, "Dusty" can now sympathize with us, for coin was extracted from him pretty freely. We are glad he came back strong, and is now a full-fledged Junior.

William Richard Sears, "Dick"
Arlington

South College; Q. T. V.; Landscape;
Junior Prom Committee; *Signal*
Board (2, 3).

"Dick" would like to be thought of
as a "hard guy," a dancer and a sport.
"Dick" is a critic when it comes to
artistic taste. Even the college build-
ings could be improved in architecture,
and "Dick" has many ideas on im-
provements.

Milton Francis Sherman
South Lincoln

10 Allen Street; K E; Landscape.

Sherman is one of those quiet boys
who seldom speaks until spoken to.
Perhaps his talkative roommate,
Allen, so monopolizes the conversa-
tion that Sherman is losing the fine
art. His serious countenance indicates
deep thought and scorn of human
foibles. He is a consistent worker
and a gentleman.

Chester P. Spofford, "Chet"
South Groveland

K Γ Φ House; K Γ Φ; Landscape.

"Chet" is our general factotum, jack of all trades. When he has a spare moment, the chapel organ catches it. He can be seen morning and night hustling to and from North College post office with the mail. So he is in great demand by all those having their mail come to the College office. He seems most satisfied when he can do some one a favor.

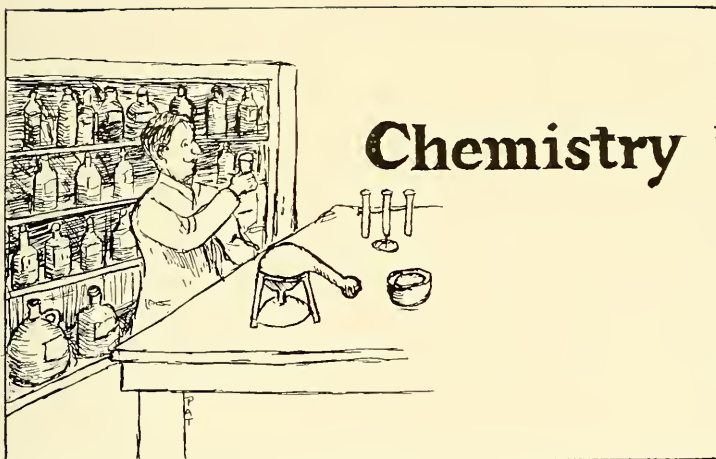

Hyde Smith, "Smithy" Worcester

12 North College; Landscape.

This consignment was imported duty-free because he was needed on the basketball team. He made good so well then that he's had to do nothing since. Therefore he elected a major that will allow him to sit in the shade and admire the scenery. We don't blame him a bit. He will probably try to duplicate some of the Amherst landscape when he gets back home. He has it in him to succeed, too.

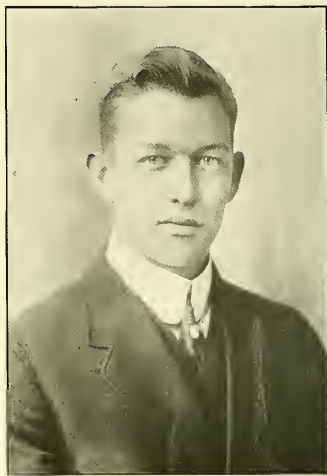

Ralph Langdell MacNeil, "Mac"
Chelsea

52 Amity Street; Chemistry.

Hear ye! Hear ye! Hear ye! Ladies and cigarette-holders! Kindly give your undivided attention while this slight-of-hand artist mixes a few. What? Drinks, of course. The most wonderful mixist known in collegiate circles. Captured in the wilds of—whisper it—Chelsea. However, there are no pleasanter moments in our fond recollection than when we have seen "Mac" "crossing the bar" toward us with a cold "grape-juice." Great lad, "Mac," and we're proud of him.

Philip Arthur Macy, "Gramp"
Oak Bluffs

53 Lincoln Avenue; K E; Chemistry.

Funny how the "sharks" all elect chemistry, isn't it? We should have chosen Animal Husbandry, however, for this man, as he has the typical lemon fawn-colored hair and pink nose characteristic of the Guernsey. He would have made good in the show ring. Well, "there be no accounting for tastes."

Franklin Winter Marsh Amherst

18 Nutting Avenue; K E; Chemistry.

We wonder if the far-away look in this man's eyes betokens thoughts of a delicious little bundle of femininity back in Dorchester, or glorious visions of the future into which we confidently look for great deeds and accomplishments by means of which "Sand-flea" will make old "Aggie" more famous.

Gerald Eugene Perry, "Fat" Amherst

Prospect House; Θ X; Chemistry.

"Fat" is in a class by himself when it comes to dancing, and enjoys making the "Informal" a success. Even when he becomes a great chemist, he'll always have time to give to that society pleasure. When in Germany, polishing off, for his "Doc's" degree, he'll have no trouble in shooting the lingo.

Vincent Sauchelli, "Vint" Waterbury

11 High Street; Chemistry.

"Vint" might be described as "diminutive in size, but excellent in flavor." He can give us all points when it comes to English, and he even soars into the realm of poetry occasionally. Among his other accomplishments, he is a tonsorial artist of no mean ability. He has elected the "fume factory" for his place of abode, and we wish him all success in his work.

Lester Winslow Tarr

Rockport

B K Φ House; B K Φ; Chemistry; French Club; Class Baseball (2).

Lester is with us in body if not in mind. If we could look behind those dreamy eyes, we should discover visions of Rockport, sad sea waves, picturesque dwellings of fishermen, boats drawn up on the beach, and in the center a maiden, mending nets, maybe, while singing a song of the ocean. "Les" is a most faithful correspondent, writing and receiving at least seven letters per week. If he omitted this work, the time saved would entitle him to a three months' vacation annually. "Les" is a good student and plays baseball well enough to make a position for himself with "Pike's Pets."

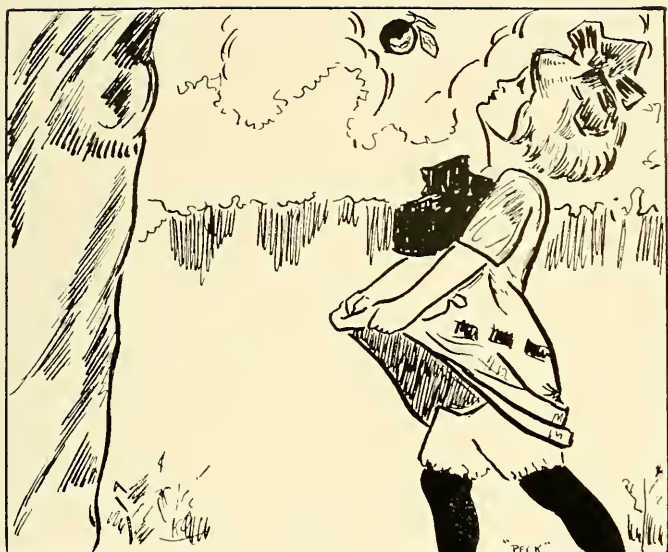

Ralph Ernest Tower, "Ralph"
Becket

3 North College; K E; Chemistry; Class Cross Country (2); Glee Club (1, 2, 3); Band (1, 2, 3); Orchestra (1, 2, 3); Mandolin Club (1, 2, 3); Berkshire Club.

We wonder if there are instruments, stringed, or otherwise, in existence, that Ralph could not play. His room in North College is labeled by the music it turns out. Now this is of great variety — brilliant scherzo movements, presto, F major 3-4, a high-sustained A thrown in, with the Finale, Allegro con brio A major, a wild rondo, giving the fullest expression of "unbuttoned joy"; forsooth, the Finale becomes orgiastic. Chemistry seems to be a side issue.

Pomology

Herbert Hildreth Archibald, "Archie"
Waltham

South College; $\Phi \Sigma \Kappa$; Pomology; Captain Class Hockey (1); Class Baseball (1, 2); Varsity Tennis (1, 2); Captain Varsity Tennis (3); Class President (2).

"Archie" was built on the Waltham plan, Model 23-7-11, Ladies' size, open face and hard case. Most of his time, spare and otherwise, is spent on the tennis courts or the hockey rink. The "Castle Walk" has nothing on the "Waiter's Trot" which he has developed. Summers, this young Apollo spends at Manomet Beach. There he leads the life of the idle rich. A sailboat surely is a valuable asset on a moonlight night!

Seth Warrener Banister Westford

82 Pleasant Street; $\Lambda \chi \Lambda$; Pomology; Class Football (1, 2); Fraternity Conference (3).

The boy with the good, old-fashioned name who intends to retire to the wilds of Westford and raise fruit. "Seth" doesn't say a whole lot, but he "gets there just the same." He is the banister which has kept 1915 from falling off the stairway to fame more than once.

Hastings Newcomb Bartley, "Bart"
Sandwich

6 South College; Q. T. V.; Pomology;
Class Hockey (1, 2).

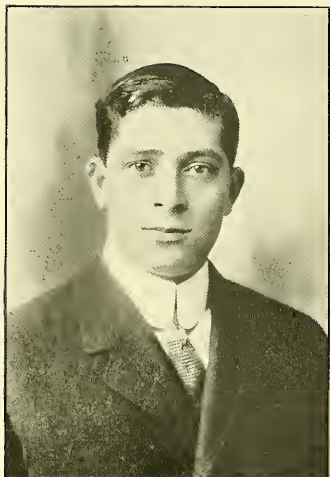

This Cape Cod specimen runs mostly to length. It was a great help to him, though, in his attempts at hockey. Reach counts in that game. By the way he acquitted himself, one would think he had spent most of his days in a boarding house. That sort of half-breed pompadour which "Hasty" has recently acquired, adds greatly to his personal appearance. There is a striking resemblance to a flagpole with the colors on it.

John Ingram Bennett, "Boob"
Boston

66 Pleasant Street; Pomology; Orchestra (1, 2, 3).

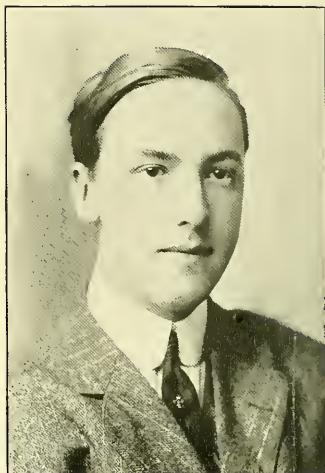

"Mazie, the Motor Maid," is a representative of what the good old Bean Town can produce. Although he says but little, John seems to fit pretty well with all the pros and occasionally manages to escape such dreaded ordeals as finals, especially in drill, physics, laboratory, etc. Would that some fair lady might persuade "Benny" to cut that hair of his to enable us the better to distinguish him from the muskrats in the college "lake."

Gardner Milton Brooks, "Gardy"
Newton

8 Allen Street; $\Phi \Sigma K$; Pomology;
Class Football (1, 2); Class Baseball
(2, 3); Fraternity Conference (3).

Behold 1915's funny man! There is more mischief and devilry wrapped up in this man's hide than in all the rest put together, except the Newburyport "gang." He won't take any back talk, even from the profs. "Brooksey" can always be depended on to "start something." His conscientious work on the baseball diamond has impressed "Billy" Fitzmaurice favorably and it's only a question of time when this little man will be preventing opposing "prodigals" from making "home runs."

John Willard Buttrick, "Bill"
Melrose

18 Nutting Avenue; K E; Pomology.

"Bill" would fain be a farmer, but, a serious youth, he has taken up fruit culture and, sometime in the future, "Bill" will be running a large fruit farm. For the past three years "Bill" has roomed with Damon, and both have got along finely. "Bill" was one of the old quartette which made North Prospect Street famous.

Maurice Joseph Clough, "Bunny"
Boston

7 South College; Q. T. V.; Pomology; Glee Club; Stockbridge Club; Dramatics (2); Roister Doisters (2, 3); *Signal* Board (2, 3); 1915 INDEX Board; Class Track (1, 2); Class Cross Country (2, 3); Manager Class Track (2); Manager Class Cross Country (2).

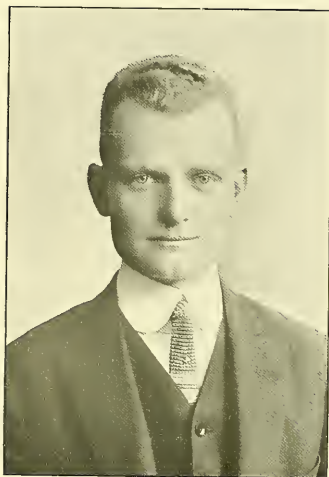

Oh! see the man. Who is the man? He is a soldier man. What is a soldier man? A man who wears a uniform and carries a sword is a soldier man. Sometimes a soldier man carries a gun. Did this soldier man ever carry a gun? Oh, yes! When he first went to war he carried a gun. Why does he not carry a gun now? Oh! he was made an officer for gallant service on the field of battle. What gallant service did he perform on the field of battle? Oh! he escorted ladies over the field on High School Day. I wish I could be a soldier man.

George Edwin Donnell, "Percy"
Burlington

East Experiment Station; Pomology; Rope Pull (1); Rifle Club (2); *Signal* Board (2, 3).

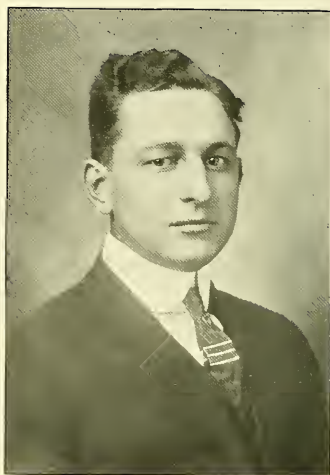

"Percy, the Mechanical Man!" He works when you wind him up, although sometimes unless well oiled the machinery in the upper part of the head fails to respond rapidly enough to the would-be nerve system. Look him over, gentlemen; he can do most anything, at least he can try. We guarantee that he will never be inclined to leave your services to settle down in a home of his own. Now, gentlemen, what am I offered?"

Paul Hughes Hildreth, "Hilly"
Newtonville

12 South College; $\Phi \Sigma \Kappa$; Pomology; Musical Club; Roister Doisters.

As a deluder of the fair sex, this little boy is the world's champion. When the sun forgets to set, then and then only, will Paul fail to think—girls. And the worst of it all is, that, though claiming to have but one, he never fails in his ability to talk of dozens. And the variegated variety that he has would put to shame Jacob's coat (or was it Hyde's). Never mind, Paul, they're jealous.

Jerome Joseph Kelleher, "Kell"
Turner's Falls

75 Pleasant Street; Pomology; Class Football (I); Catholic Club.

"Jerry" returned to the paths of learning after finding out, like some of the rest of us, that this world is very "crool" to the man with a merely mediocre mentality. We doubt if the habitués of "Eddie's" would know what to eat were not this unabridged gentleman present to extol the virtues of the aforesaid "Eddie's" fare. This dynamic and magnetic lad comes from the town where they make electricity and has to return frequently for a new charge.

Worthington Chester Kennedy, "Red"
Hardwick

6 North College; Pomology; Stock-
bridge Club; Band (1, 2, 3); 1915
INDEX Board.

"Ken" believes in minding his own
business and in letting others strictly
alone, consequently he is one of the
hardest men in the class to get ac-
quainted with. Those of us who know
"Worthy" best, however, rather like
him in spite of his many faults.
"Craig" is the oldest man in the class.
No wonder he looks worried, trying
to be a "big brother" to 1915.

Roger H. Moore, "Bean Eye"
Beverly

6 Nutting Avenue; Pomology.

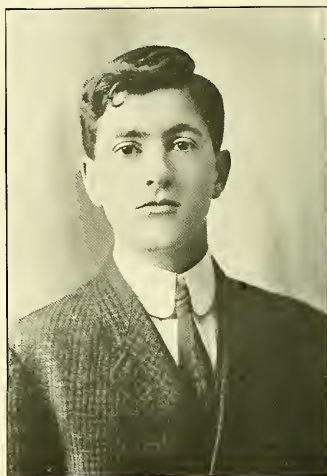

All hail! Here comes "Roger the
Red" from Beverly, the only original
shark, and agent for Rexall Remedies.
Studies and exams never worried Roger
in the least. "Red" is one of the
spasmodic "fussers" who do not
believe in Smith or Mt. Holyoke but
who lives in hopes of another High
School Day, where he shines at his
best.

Harold Merriam Rogers, "Skinny"
Southington, Conn.

87 Pleasant Street; $\Sigma \Phi E$; Pomology; Orchestra (1, 2, 3); Class Cross Country (1); Class Track (1); Stockbridge Club; Rifle Club (1); Roister Doisters (3); Business Manager 1915 INDEX.

The fact that Prof. Sears has this motto over his desk, "When in doubt, ask Rogers," prompted the class to elect "Skinny" to the business managership of the best college annual yet published. We understand he has an orchard already set, using the filler system; permanent trees, "peaches," with "maiden blushes" for fillers. This is a novel scheme in orchard planning, and we are anxiously waiting to see what success he will have.

Raymond Melville Upton, "Uppie"
Peabody

Plant House; K E; Pomology; Rifle Club.

"Uppie" is one of our agency men, gathering together untold wealth by his various money-making schemes. He spends many hours in the rifle range, which explains his soft office job in drill. "Uppie" will succeed if perseverance is the main requisite, for he is such a persistent worker that he finds no time to waste, or even to enjoy himself.

Harold C. Willey

Orange

Plant House; Pomology.

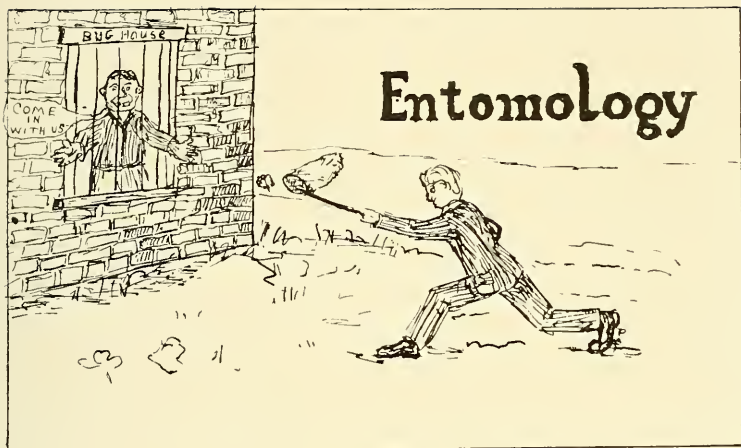

In spite of his name, we assure you that this is no "Willie boy." He is a hard-muscled, hard-headed, and hard-worked farmer. Willey is a serious minded chap, and a conscientious plugger. After another year and a half here, he is going to settle down and show people how to raise fruit — and a family.

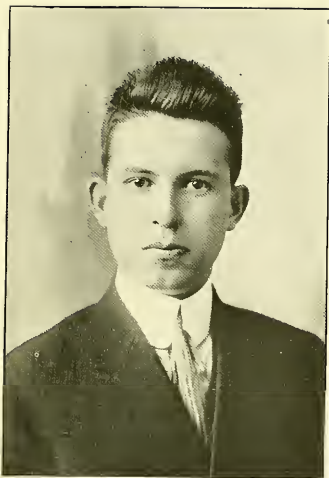

In Memoriam

EDWARD WOODMAN, Jr.
Class of 1915

Gladstone Hume Cale
West Springfield

Durfee Plant House; B K Φ; Entomology; Glee Club (1, 2, 3).

This German scientist has imposed upon himself a life sentence as an entomologist. His inherent ability in the biological field has been recognized by Dr. Gordon, who is employing him as an assistant in Sophomore zoology. Inasmuch as several Juniors are repeating zoology, "Glad's" scientific prowess is greatly appreciated by some of his classmates. His German blood is evident again in the success of his musical efforts. His good nature and keen sense of humor make him well liked by all who know him.

Raymond Bradford Griggs, "Ray"
Chicopee Falls

13 South College; Φ Σ K; Θ Ν Ε; Entomology; Manager Class Basketball (1, 2, 3); Glee Club (1, 2, 3); Secretary Musical Association (2, 3); Mandolin (1, 2, 3). Banquet Committee (1); INDEX Board (3); Class Track (1, 2, 3).

If any classmate wishes to test his strength, it is advisable that he should see "Ray" right off. In feats of strength, Ray is in a class by himself. Many of us have not forgotten Ray as Postmaster General, which office he filled efficiently.

Charles C. Hill Melrose Highlands

Pease Avenue; Entomology.

Charley has visions of future greatness in the world of science, and knows no greater pleasure than to gaze steadfastly down the barrel of a microscope at some helpless insect. But he is not cruel, and since we must tell the truth, he is a little gentleman. He came to us after a year at Harvard. It was there that he contracted the habit of studying to such an extent that he has applied himself too conscientiously to the books ever since.

Merton Chesleigh Lane, "Mert"
South Duxbury

Old Insectary; A X A; Entomology; Rifle Club (2); Class Rope Pull (2).

"It's a long lane that has no turning." We suspect that Merton will not turn aside for anything but will forge ahead like a steam roller till he gets that bit of sheepskin that will make him a B. S. in its broadest sense. Hope he does; he has a fairly good line now. He's a pretty husky man, though, to be fooling with bugs and worms.

Ray Farrar McKechine, "Mac"
Natick

K Γ Φ House; K Γ Φ; Entomology;
Class Secretary (4).

When we gaze on "Mac's" pink and white Pompeian (?) complexion, we are more reconciled to the fact that 1915 is strictly "stag." Still, would not a co-ed with Ray's complexion, "Blondie" Marsh's hair and "Gaby" Perry's shape look good to us? "You betcher."

George Deady Melican, "Giggie"
Worcester

5 South College; Q. T. V.; Θ N E;
Entomology; Varsity Football (2, 3);
Manager Varsity Baseball (3); Cap-
tain Class Football (2); Captain
Class Basketball (2); Class Basket-
ball (1, 2); Sophomore-Senior Hop
Committee.

If "Billy" would have allowed a one-word definition of inertia, the word Melican would have been a most complete definition. When off the football field, he is an admirable example of a body at rest remaining at rest; and when on the field, he illustrates the law that a body in motion will continue in motion unless stopped by some overwhelming force. And it takes "some" force to stop "George," too!

Edwin Kenney Parker, "Ned"
Northampton

East Experiment Station; $\Phi \Sigma K$;
Entomology.

"Ned" is a fast man, for he can be seen going by at high speed, leaving us all behind. When he's tired of cycling, he finds time to photograph. As an entomologist, "Ned" will shine, and even now he has applications filed for state entomologist out West.

Verne Lincoln Severance, "Sev"
South Hanson

Old Insectary; $\Lambda X A$; Entomology.

"Sev," I'm sure, will leave poison sumach alone hereafter, but still does not regret he took Hort. III. Sundays, "Sev" enjoys long walks about North Amherst, and, when evening comes, he can be found at Unity Church, where he takes much interest in the church work. When he leaves "Old Aggie," and becomes settled in life, he'll be the owner of vast areas of cranberry bogs on the Cape.

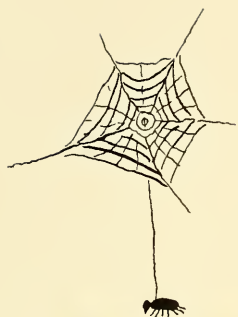

Stuart Cunningham Vinal, "Stu"
East Weymouth

S Allen Street; K E; Entomology;
Class Track (1).

"Stu" shines in zoology. As an assistant to Dr. Gordon in the laboratory, he is greatly in demand by the hard-working Sophs. Besides zoo, entomology looms up as an easy proposition. Next summer we can see "Stu" traveling the country, inspecting imported nursery stock, making him quite a gentleman of leisure. We are all glad "Stu" is with us, and that he did not have to drop out on account of scarlet fever, which downed him for a time.

Microbiology

Stuart Kittredge Farrar, "Sty"
Springfield

K Σ House; K Σ ; Microbiology;
Class Historian (1); Sophomore-Senior
Hop Committee (2).

For self-assurance, this man has anything in the class beaten to a frazzle. However, we must admit that it is quite justifiable, because he has the goods. He even expects to get by M-i-c-r-o-b-i-o-l-o-g-y, although he admits that he can't explain why he elected that major, unless it were because the name took up more space in the INDEX. Although formerly manager of the Kennel Club, he now spends his time in the Lab, where he may be seen chasing bugs around a test tube. "Sty" is very fond of telling us about his "smooth-faced mother and the father who wears a vest."

George Morris Hall, "George"
Brookline

A Σ Φ House; A Σ Φ ; Microbiology.

This man's dignified appearance causes the freshmen to salute him for one of the faculty. In his quiet unostentatious way, however, he is one of the boys, and enjoys a good time as much as any of us. During the summer school he takes keen interest in such subjects as "The rural school-marm," and has written a poem on "The M. A. C. Puddle by moonlight." George is also an essential part of the library equipment.

Robert Earley Patterson, "Pat"
Dorchester Center

75 Pleasant Street; Microbiology; Catholic Club; Sophomore Baseball Team; 1915 Track Board; 1915 INDEX Board.

Will "Pat" play strip poker again? Ask him and see. If there is another fire down town "Pat" will surely try to make good a second time. Besides a fire-fighter, "Pat" is a microbe-fighter, and will some day become famous in his work on bacteria and disease.

Isaac B. Simon, "Sime" Revere

12 North College; Microbiology; Burnham Eight (1).

Here is another man the Profs cannot "stick," but if he makes life as miserable for the others as he does for "Pop" in Psychology, he will be graduated young. The funny part of it is that the questions he asks are good, common-sense, legitimate, information-seeking inquiries, which are the result of a clear insight into the problem at hand. We have no doubt as to his ability to succeed.

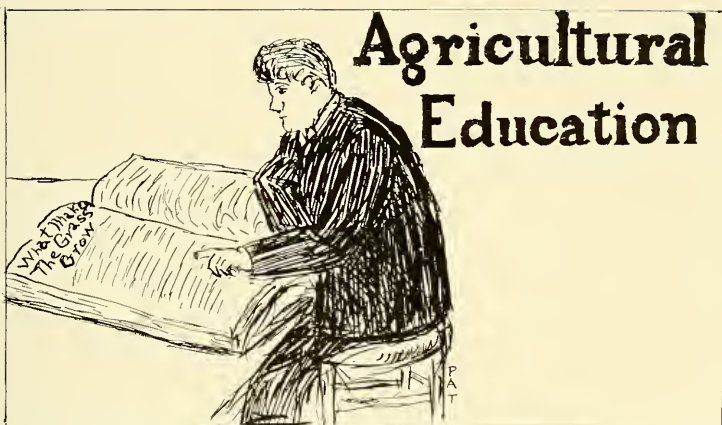

Benjamin Vener, "Ben" Brockton

38 Cottage Street; K E; Microbiology.

"Ben" came to us from Clark University. Here, he soon became known as a student. Selecting microbiology is proof that Ben chose that subject, not because of its big sounding name, but because he was for earnest work, and felt he could master anything from a croquet ball to a lemon.

Agricultural Education

Herbert Henry Anderson, "Herb"
Ware

5 Nutting Avenue; K E; Agricultural Education.

"Herb" comes from Ware where he enjoys the local reputation of a scholar. He is "Pop" Hart's disciple and listens with rapt attention to the ponderous profundity of his "Master's" discourses. Some day "Andy" is going back to that little country town and revolutionize the school system.

George Frederick Hyde Petersham

B K Φ House; B K Φ; Agricultural Education; Class Football (1, 2); Rope Pull (1); Rifle Team (1, 2); Glee Club (1, 2); Sophomore-Senior Hop Committee; Informal Committee (3).

Fred is untiring in his pursuit of maidens.

"For let 'em be clumsy or let 'em be thin,

Young or ancient, he cares not a feather."

His success as a maiden-charmer and society man is equaled only by his success along commercial lines. Owing to lack of studious effort, his own line often appears lame and wobbly in the class-room, but outside it is almost peerless. He travels with the glee club and may be a good singer, but of this we have no proof.

Ashley Cudworth Le Duc, "Dukey"
Chesterfield

5 Nutting Avenue; K E; Agricultural Education.

Here's one of our men who can not only milk "caows" and "plaow" under green crops, but knows why he is doing it. We "calkillate" that he will revolutionize the educational system of Chesterfield, b'gosh, when he returns home. We only hope he won't forget to take his faithful wife "Andy" with him.

William Reginald Tower, "Rege"
Sheffield

94 Pleasant Street; K. E.; Agricultural education; Glee Club (1, 2); Class Rope Pull (1).

WANTED: — A live, capable, energetic, educated, refined, intelligent man, who understands the teaching of modern agriculture by the latest improved methods, to take charge of the Bureau of Agricultural Education under the new republic. He must have had experience in handling teachers, must be a total abstainer from liquor and tobacco; must have no bad habits; must not swear, must have an imposing appearance, and must be able to teach a Sunday School class on the Sabbath when other work will not be pressing.

(Signed)

Pres. of the new Chinese Republic.
Here's your chance, "Rege."

PLANT PATHOLOGY

Charles Harold Alden, "Stubby"
Amherst

5 East Pleasant Street; K E; Plant Pathology; Class Track (1); Class Football (2).

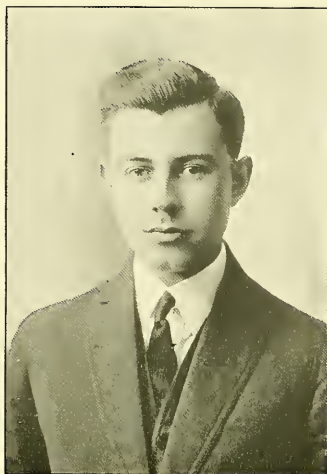

Good things come in small packages all right and "Stubby" is no exception. To the casual observer he appears to be built more for comfort than for speed, but here is where he fools the general public again, as he is "some" sprinter. We are sorry to say that Charlie smokes — sometimes as frequently as once a week, but we can conscientiously say that we have never heard him "cuss" — a rare attribute in a college man.

Frank Weed Buell, "Fwank"
Brooklyn, N. Y.

5 South College; Q. T. V.; Plant Pathology; *Signal* Board (2, 3); Sophomore-Senior Hop Committee; Fraternity Conference (3); Informal Committee (3).

Here is a man who, above everything else, aspires to high literary fame. We have but one suggestion to offer, viz.: No great editor ever accomplished his aim while dreaming of the fair sex, and we believe Frank is no exception. However, so far, he has made good, and the prospects for the future certainly are bright.

William Leonard Doran, "Bill"
North Dartmouth

B K Φ House; B K Φ ; Plant Pathology; Florist and Gardener's Club; Senate (3); Class Historian (3); 1915 INDEX Board.

Down in North Dartmouth they call this boy "Willie," but we use that name for an entirely different sort of boy. Here, he is good enough to be called "Bill." He is one of those who "cinched" "Fly Clapper Fly" in his Freshman year. "Bill" has traveled considerably since coming to M. A. C., enough so he can now get to the big games at any time. All the road officials have become familiar with his face, and ask no questions. His regular trips toward North Deerfield have aroused suspicion in the minds of the good ladies of the "Sewing Circle."

Arthur Johnson, "Johnnie"
Bridgeport, Conn.

7 South College; Q. T. V.; Plant Pathology; Varsity Baseball (2); Varsity Hockey (2); Class Football (2); Class Hockey (1, 2); Class Baseball (1, 2); Class Track (1); Class Cross Country (1); Captain Class Hockey (2); Mandolin Club (1); Captain Class Cross Country (3).

This man's coming from Bridgeport has led us to suspect that he escaped from P. T. Barnum's aggregation, especially when we take into consideration his athletic abilities. He can do anything from running cross country without training to making the great "Smoky Joe" hustle for his position. If he can overcome his inherent disinclination to physical exertion, we may hear of him in the big league some day.

John Sumner Lovejoy, "Shrimp"
Newburyport

53 Lincoln Avenue; Plant Pathology.

With the assistance of "Doc" Gordon we are able to classify this specimen as follows: Phylum Vertebrata, Class Mammalia, Order Primates, Family Hominidae, Genus Homo, Species Sapiens (Variety "Torey"). Now maybe you think we're calling him names! Well, the same names would apply to you. So there!

Sidney M. Masse, "Sid"
Dorchester

6 Nutting Avenue; Plant Pathology; Class Basketball (1, 2); Manager Class Track (2).

Here before you is the Roman profile of "Sid" Masse, the all-around athlete from Dorchester. "Sid" organized the Junior Football Team for a general rough-house with '14, and was consequently elected Captain, Manager and otherwise. "Itchsky" was one of the favored quartet who acted as sanatorium guard for the Freshman President and was the one who kept the cop from interfering by telling him that President Gould had escaped from the Herrick School of Amherst.

Homer Beethoven White, "H. B."
Melrose

Apiary; Plant Pathology; Band; Class
Hockey (1, 2).

True to his middle name, Homer is a great musician. He is not only a performer whose first efforts on the trombone last year kept the whole neighborhood enraptured all through the night, but he is also a composer. Homer also displayed much ability in our class games in blocking the scooting puck, and we expect to hear more of him later.

Sophomore Class History

1916

FOR the second time in the career of the class of 1916, do we appear in the INDEX, but on a higher plane than before. As Freshmen, we passed through our year with unusual success, especially in athletics against the Sophomores, as we won the football, basketball, and hockey games from them. It was at these games that the spirit of 1916 began to show itself, and it helped our teams to victory. But once were we humbled, and then at the Freshman-Sophomore baseball game. It was the one sad mark upon our heretofore glorious career. In cross country and track, as Freshmen, we showed the other classes that we had the real stuff, by winning the cross country by a large margin, and the Indoor Track meet by one point, against the formidable Senior team. At these times our rivals — 1915 — could not be seen anywhere. In Debate, the boys of '16 shouted their way to victory.

Now we appear on this campus as Sophomores, somewhat diminished in numbers — it is true — but bound closely together by the spirit of the year before. Upon our arrival we noticed the presence of an immense mob, all of the same color, insignificant and meek individually, but very formidable looking when brought together. There were more green buds on the tree, and they were two hundred strong at that. We speedily resolved to try their spirit by rushing them in the back lot. Confusion, terror, and even hysterics, reigned among them at times, poor dear things, but at last we succeeded in hushing them up while they listened to their first college songs and cheers.

Outwardly calm, but inwardly nervous, we stood by the pond facing sixty husky Freshmen. 1916 needed all her spirit and strength this time. A few anxious seconds on the rope, — the gun — a few steps backward, and then down. We had the jump on them, and it won the day for us, for after fifteen minutes it was found that we had about three feet more rope than they. It was a close shave, but we won.

Then came the memorable Freshman picture fights, and the queer adventures of several cameras, in which we gave the Freshmen some good lessons on "How To Take Pictures Quickly," and on "How to Keep Them." It was at these times that the true spirit of 1916 came out; it proved us a unit and helped us to defeat the Freshmen in the six-man rope-pull. History repeated itself when we defeated all classes by a large margin in the annual cross-country run. But now, as Sophomores, we are facing the greatest odds of all, — the murderous onslaughts of "Billy" and "Doc," but by our famous class spirit we hope to withstand these attacks and still "hold the fort."

But in the heart of every '16 man, even beneath the class spirit which we claim, there lies the famous Aggie spirit of old, and every man of us is striving to put forth his best efforts in every way to "Boost Old Aggie."

1917 History

VOICE — Springfield 2947R.

Voice — If you please.

Voice — Hello dear, how are you?

Voice — No, before I could register I had to wait in line for about three hours. Pretty tough; but I was thinking of the bright fireside four years hence.

Voice — Say, do you remember that rough-house we saw last Fourth-of-July? Well, we had a scrap with the Sophomores the other morning; and I'll bet the upperclassmen were nearly as excited as you and I were that time, although I don't think any of them went off the handle the way that old fat woman did.

Voice — Was that in the paper? What was said about it? It was too funny for words; we all had our nightshirts on; and we had to march way down street. It was awful. I couldn't sit down for a week after, one of the Sophs hit me so. Believe me, his paddle wasn't soft.

Voice — Yes, I had some time at that Informal, and was very sorry that you couldn't come. I felt quite big that night, as only nine other Freshmen attended.

Voice — We elected them some time ago. It was a regular circus. Not knowing each other very well, we selected three or four men for each office and had them stand in a row before the class. After a good look at them we elected one from each group. It reminded me of the auction we attended one time last summer, don't you remember?

Voice — I almost forgot to tell you we had our class picture taken. Our President—between the two co-eds—made an appropriate filling for a sandwich, as it were.

Voice — Where did you see anything about that? It was a shame to lose both those rope-pulls; but never mind, we got the victory in football. We are entitled to our smokes on the campus now. This first victory may give us some self-confidence, and enable us to do our share in "Boosting Old Aggie."

Voice — No, I mustn't talk any longer or they will never let me use the line again. Good-bye, dear.

Mass'chusetts !

Team! Team! Team!

Football

The successful season just finished shows up two things in particular: The wisdom of having a coach for a series of years, and an increased interest in the game by both student body and alumni. Starting in last year with a pretty discouraging lot of material, Coach Brides has developed a team which, altho defeated in the three big games, scored on Dartmouth for the first time in years, and scored a larger number of total points than its opponents. The size of the squad shows the interest taken in the sport by the student body. Many afternoons three, and even four, teams were on the field, thus developing scrub teams, which brought out all the strength and skill the Varsity men possessed. This increase in the size of the squad was partly due to the improved schedule of classes which allows more time in the afternoon for sports. The increased alumni interest was shown by the large attendance at both the Tufts and Springfield games. The places of the four men who will be lost by graduation should be easily filled and, under the leadership

of Captain-elect Melican, Aggie should be able to get those big games next season.

Baseball

IN THE past three years the baseball team has steadily progressed from a losing team to a team that has made the college proud to send it out. The percentage of wins has risen higher and higher, and last season the best record was made, but two losses being sustained. It is hoped that the coming season will show us something even better.

It is true that four men were lost from last year's team by graduation; but perhaps we should look upon that as a help rather than a hindrance. It should be a spur to urge more new men to fight for positions on that team, and to bring out a big bunch of material. There are some good men in the three upper classes, and no doubt there are many others in the Freshman class. With a first-class coach to develop that material, and with the old men steadily improving, the prospects for a very successful season are more than bright.

Those of us who know "Billy" Fitzmaurice, know what he has done in turning out the winning teams during the few years he has been here, and we know the confidence he inspires. So, with an even break of luck, would it be too much to look for a clean slate next season? If that cannot be achieved, we know it is safe to prophesy a winning team.

Captain.

Hockey

THE schedule of the team for 1913-1914 shows where M. A. C. is rated. Harvard, Yale, Cornell, Dartmouth and Princeton have clinched dates. The past season the team was badly handicapped because of the open winter, the hardest games being played when no practice could be had. In spite of unfavorable ice conditions, the reputation of M. A. C. was upheld.

A slightly different system of team work is to be worked out this year.

Prospects are brighter than ever before. Only Brewer and Little were graduated — two good men. Several Freshmen, however, are expected to show more than high school reps and, with last year's scrubs, will make any position on the team an honor difficult to obtain. "A clean slate" is our chance to "Boost Old Aggie."

Track---Review of the Year

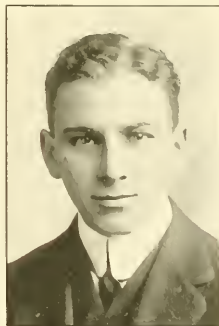

THE season of 1912-1913 was not as successful as the previous year, but the team had a great deal faster company to contend with. M. A. C. is now a member of the N. E. I. A. A., having been admitted Feb. 8, 1913. The Cross-

Country team was exceptionally strong, defeating Tufts and Vermont, and losing to Brown. Coach L. S. Dickinson '10 had the men in as good condition as could be expected, being handicapped by the lack of practice during the scarlet fever epidemic, for the first meet of the season with Tufts College, which was won by a narrow margin. The team lost to W. P. I. for the first time in five years and placed fourth in the Columbia Indoor Relay Carnival. The last meet of the season was with Rhode Island State and the M. A. C. team won handily in the fast time of 2 minutes and 50 seconds.

The outdoor season consisted of a dual meet with Amherst which was won by them, and the N. E. I. A. A. meet held in the Harvard Stadium. Two records were broken by our men in the dual meet, the broad jump and the pole vault. The M. A. C. boys made a fine showing at the Stadium although not being able to score. The team was ably assisted by Coach Marion Roberts, Captain of the Amherst Track Team of 1911.

The outlook for a successful season is very favorable. With practically the same Cross-Country Team still in college, a strong team is looked for.

Manager E. C. Edwards has arranged for four meets and the Intercollegiate Cross-Country run to be held in Hanover. Coach Dickinson will be assisted by Warren F. Whittier of the Harvard '08 track team, who is taking graduate work here, and is sure to build up a strong relay team. There is wealth of material for all branches of track in the entering class and the prospects of this season are exceptionally bright.

Warren F. Whittier

Coach Whittier was born in Boston, May 6, 1887. He was prepared for college at Milton Academy, graduating from that school in 1905. There he first showed his athletic abilities, being active in football and track. He was graduated from Harvard University in 1909. While there he made a name for himself in track, running in the following events: 880 yards, 780 yards relay, and 390 yards relay. That he is a good fellow is shown by the following exclusive Harvard clubs to which he belongs: "Dickey," Hasty Pudding and Owl. He has received instruction from some of the world's best runners, notably Al Shrub, the famous English distance man. He is working along the lines of Shrub in his coaching here. For the last three years he has been engaged in business in California. His interest in modern agriculture induced him to take a postgraduate course at Aggie. His valuable experience in track makes him an efficient coach and much credit is due him for the good showing of this year's team, as it is largely the result of his freely given time and effort.

Tennis

DUE largely to the lack of good courts, the tennis team at M. A. C. passed a year of little improvement over that of the previous year. Captain Roehrs hoped, at the beginning of the year, to build up a fast aggregation, and set out with the earnest intent of accomplishing this.

With Archibald and himself as varsity nucleus and several other promising men, a start was made; playing Springfield Y. M. C. A. College a 3-3 tie, having been on the courts but two days.

The season progressed with the team merely holding its own, yet striving to improve its game against unfavorable weather conditions. Two fine trips were made by the team; one out through New York State, taking in Union College at Schenectady and stopping at Williams College on the way back.

Another trip took us into Connecticut where Trinity was played at Hartford in a very fast match. On this trip we also played the International Y. M. C. A. College at Springfield in a match which was even more exciting than the first match. Still another fine trip was planned by Manager Bokelund, with Holy Cross at Worcester and Brown at Providence, R. I., but these matches were both postponed on account of rain and wet courts.

Dartmouth was played on our own courts and two matches with the Holyoke Canoe Club of Smith's Ferry furnished some very fast tennis.

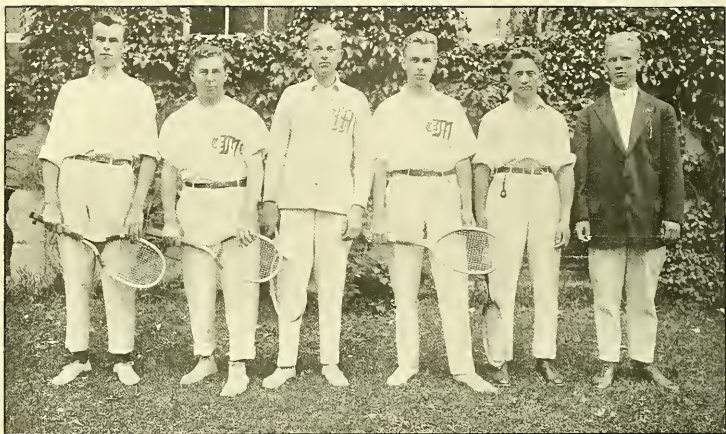

Returning to college this fall, Captain Archibald has taken the doubles department of the game and improved it considerably. A doubles tournament showed much valuable material both in the Freshman class and

among the upper classmen.

The Athletic Board have shown a decided interest in the tennis association, and have made special appropriations for the reconstructing of our courts this spring. With these to work on it is pretty certain that Captain Archibald will turn out a much faster team at M. A. C. for 1914.

Review of Rifle Season

HE rifle teams of the season 1912-1913 certainly upheld the M. A. C. reputation for good shooting. The indoor team won first place in the Eastern League. Although our men had no coaching, they shot very consistently throughout the season, making an average for the first five men of 959. In June, with but a few days' notice, the team shot 955 against West Virginia, the champions of the Western League, who had shot 988 against Harvard at the close of the indoor season.

After having given up practice for two months, we could not be expected to beat that score. Captain Edminster, by shooting a season's average of 194.1, obtained the privilege of shooting on the U. S. Small Bore Rifle Team, doing very creditable work.

The outdoor team had remarkable success. Under the able coaching of Gunnery Captain Shriner of the U. S. Marine Corps, the team was well developed, so that in the championship match M. A. C. won with the grand total of 825, beating Harvard, the second highest team, by 34 points, and creating a new intercollegiate record.

The RMT was given to those members of the indoor team who shot a season's average of 188, or better, and to all members of the outdoor team.

E. W. Dunbar, '14, was elected Captain for the season 1913-1914, and with Oertel, Clark, Whitmore, Hyde, Wetherbee, and Donnell, as veterans, and considerable promising Freshman material, the prospects of another successful season are very bright.

The Social History of M. A. C.

HE first recorded movement toward the establishment of dances here, at M. A. C., was in 1874-5. The class of 1877, then Sophomores, had a dancing class, started by J. K. Mills and Frank Urner. They had "Tommy" Holland, an instructor from Springfield, and held the class in the top of the Chemistry Building. There were, however, no real college dances or Proms until several years later.

A. X. Petit influenced our social history to a considerable extent. He came to Amherst in 1889 and lived in the second story of Dickinson's Block, using the third floor for his dancing class. This class was made up of the wealthy young men of both Amherst and Aggie, and a few fellows from town. He held receptions in the parlor of the Amherst House, using the dining room for the dances, which were quite swell and very formal.

The wealthy young men who attended these affairs were almost exclusively those living at "Frank Wood's Tavern" — the wooden block on the corner of Amity and Pleasant Streets, opposite the Amherst House. Rates at the Tavern

were high — board was \$8.00, and rooms \$5.00, while board in other parts of the town was from \$2.75 to \$3.00. The men living here included several foreigners who were then at M. A. C. and several Amherst men.

At this time dancing was generally looked upon with disfavor, and a man who went to 'Hamp to a dance was regarded as a bad man. There was no Junior Prom at Amherst College, and Fraternity dances were held only during Commencement. But, during the winter of 1890, some of the Amherst students from the Tavern went down to the Yale Assembly, and were so well pleased with the affair that they decided that their college must have something of the sort. These men influenced their class to hold a Junior Prom, and the "Aggie" men who lived at the Tavern were invited.

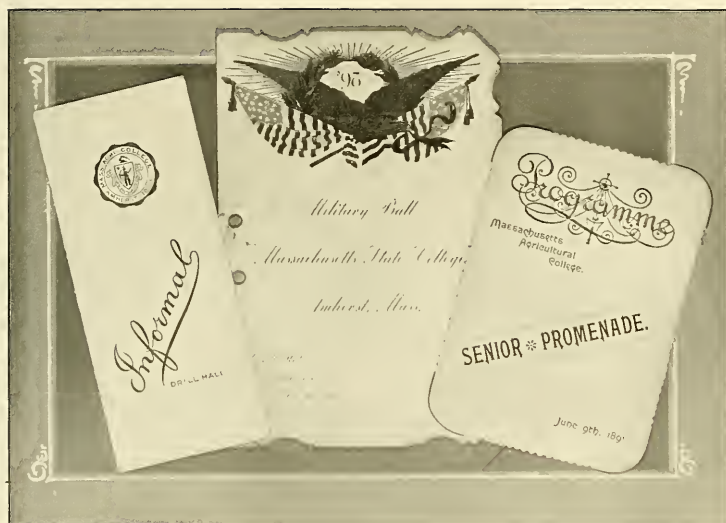

Among the "Aggie" men who attended the first Junior Prom at Amherst was a Porto Rican, Oscar Vidal Berbosa Lage, '91. He was so delighted with the affair that he determined that his class should give a similar one when they graduated. The class would vote to have the Promenade only on the condition that Lage should finance it. He arranged to have in the present Chapel, in June, 1891, the first Senior Promenade at M. A. C. He furnished good music, and had Mr. Petit lead the Lancers. This was the only Senior Prom which was a financial success, netting the class forty dollars. Of the men in attendance, more were from Amherst College than from M. A. C.

The class of '92 lost about \$150 on their Prom. Each succeeding class gave a Prom and in almost every case lost quite a little money. Finally, in 1907, the class of 1909, then Sophomores, offered to give the Seniors a reception, and manage their Prom. Their offer was accepted, the plan was taken up by the Senate, and since that time M. A. C. has had not a Senior Promenade, but a Sophomore-Senior Hop. This arrangement has proved very satisfactory. The Seniors are relieved of the arranging of details for a Prom at their Commencement time, the Sophomores have a chance to do their friends, the Seniors, a service, and of late years the Hops have been made financial successes.

M. A. C. has had one Military Ball. This was given in 1898, by the Fraternities, and was largely attended. The Ball was held in the Drill Hall and was strictly military. The decorations were field pieces, guns, sabres, and the U. S. Flag. A tax of \$1.50 was levied on every man in college. This Ball was a very successful affair.

During all this time Mr. Petit was holding dancing classes here at M. A. C., for some time in the old Chemistry Building and later in the Drill Hall. He had two classes: one for beginners and one for advanced students — those who could waltz. He began to vary his receptions up-town with informal dances, which were quite popular. When the idea of holding these informal dances here at college was suggested, it met immediate approval, though no one wanted to finance the proposition; and so Mr. Petit ran them himself. If there were not enough Aggie students to make the affairs successful, he made up the number from Amherst men and men from town. Neither Amherst nor Aggie had much of anything to do with either Smith or Mount Holyoke, and the men had to find partners among the town girls.

In 1902 the men ran the Informal themselves, and it was a financial success. Since that time it has become a regular institution, run by a committee. This year for the first time it is directly in the hands of the Senate, with the members of the committee elected by the Student Body. The Informal has come to have a large place in the social life of M. A. C., and it is one of the institutions which represent what we are pleased to term "Aggie Democracy." The Informal is increasingly and deservedly popular with M. A. C. men, and, we fondly believe, with Smith and Mount Holyoke likewise.

Prizes and Awards, 1913

Grinnell Prizes:

The Grinnell prizes, given by the Hon. William Claflin of Boston in honor of George B. Grinnell, Esq., of New York, to those members of the Senior class who pass the best, second best, and third best examinations, oral and written, in theoretical and practical agriculture.

First prize, \$25, awarded to Allister Francis McDougall.

Second prize, \$15, awarded to Stuart Dodds Samson.

Third prize, \$10, awarded to Ralph Hicks Gaskill.

General Improvement:

The Western Alumni Association prize, given to that member of the Sophomore class who during the first two years in college has shown the greatest improvement in scholarship, character and example, \$25:

Awarded to Waldo Atwood Cleveland.

Public Speaking: (Previously announced.)

The Burnham prizes awarded: To the students delivering the best and second best declarations.

First prize, \$15, awarded to Henry Hyman Kitsis.

Second prize, \$10, awarded to Irving Boin Lincoln.

The Flint prizes awarded to the students delivering the best and second best orations:

First prize, a gold medal and \$20, awarded to Irving Boin Lincoln.

Second prize, \$15, awarded to Frederick David Griggs.

Debating:

The prizes in the annual debate are awarded as follows:

\$15 and a gold medal, awarded to Herbert Augustine Brown.

\$15 and a gold medal, awarded to Frederick William Read.

\$15 and a gold medal, awarded to Charles Holt Gould.

The prizes in the interclass debate are awarded as follows: Won by the team representing the Class of 1916, consisting of:

Thomas Lincoln Harrocks.

Charles Holt Gould.

Perez Simmons.

Each member of the above team was awarded a silver cup.

Military Honors:

The following named Cadet Officers have been reported to the Adjutant General of the United States Army and to the Adjutant General of the Commonwealth of Massachusetts, being efficient in Military Science and Tactics and graduating therein with highest honors:

Cadet Colonel James Dudley French.

Cadet Major Albert Joseph Kelley.

Cadet Major Norman Russell Clark.

Cadet Captain Albert Franklin Edminster.

Cadet Captain John Lawrence Mayer.

Cadet Captain Allister Francis McDougall.

The prize of \$100, offered by the New York, New Haven and Hartford Railroad, to that student of the Massachusetts Agricultural College, who, during the present school year, made the best suggestion of a method by which our system of railroads can co-operate with the Massachusetts Agricultural College for the development of the agricultural possibilities of Massachusetts in particular and New England in general.

Awarded to Chester King Allen, 1916.

GRINDS

"If" (with Apologies to Kipling)

If you can bluff the Profs at old "Mass Aggie,"
 A thing that upperclassmen tell you can't be done;
If you can pull good marks in all your courses,
 To do it you must give up all your fun;
If you get by without a flunk from Peters,
 Or "crib" thru "Billy's" Trig and not get caught;
Or cheat, and get away with it like other cheaters
 And, tho they know you've cribbed, you fool the lot;

If you can get by Zoo in spite of Gordon,
 Or Dr. Cance don't get you with his stuff;
If "Sid" or "Mac" don't get you with their problems,
 Or "I'll stick ye" doesn't make you yell "enough;"
If Sophomore English doesn't make you sick of living,
 And after taking it, you still feel game;
And get from other courses that they're giving,
 Encourgement to work on just the same;

If you can save your "wife" or some frat brother,
 From being flunked, by your good "line of bull;"
If you can plan to make the Profs all hate you,
 But, hating, fear you, 'cause you've got a pull;
If you can keep together soul and body
 By eating "hash-house" grub three times a day;
And say that you enjoy it, and don't holler
 And growl about the price you have to pay;

If you can wear good clothes and not act "sporty,"
 Or wear your old and not look like a tramp;
If you can keep the girls all guessing,
 Here, at Mt. Holyoke, home, or 'Hamp;
If you can hold your peace down at the "Movies,"
 And let the crowd enjoy them, if they can;
Besides all these, if you can keep away from "Dickie's,"
 You'll be a man, my son, you'll be a man.

Scarlet Fever Memories ~what?

Grant's Favorite Poem

Ship me somewhere east of Suez,
Where the best is like the worst;
Where there ain't no ten commandments
And a man can raise a thirst.

"Put That Hand Down"

B is for Blokey, U. S. Army retired.
The son-of-a-gun,
He will have his fun,
Telling the studes how he nearly expired.

One On "Doc"

C is for Charlie, that jolly old saint.
A little more hair
On a spot cold and bare,
Would make his chin whiskers a little less quaint.

Farrar (ordering for the dog-cart): "And say, Clara, put in an — 'er, 'er, an occasional fresh loaf, will you?"

Allen (in English): "The duke did not like the smile on the face of his portrayed wife, so he ordered it 'er, 'er 'wiped off.' "

The Freshman's First Account

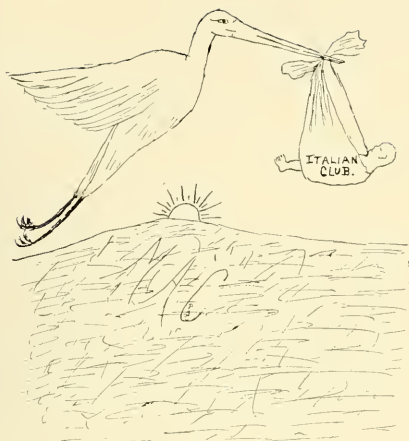

[illegible]

Worthless account.

[illegible]

As he made it out.

As he sent it to Papa.

Who Put:

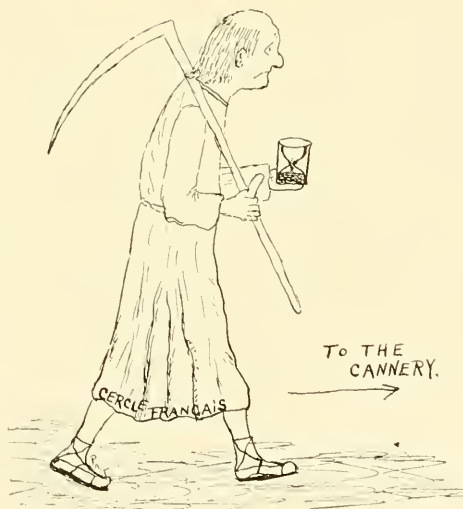

The ills in Mills?
 The ague in Sprague?
 The ran in "Johnny" Ostrander?
 The tin in Capt. Martin?
 The ears on "Baldy" Sears?
 The can in Cance?
 The cramps in Crampton?
 The hic in Hicks?
 The age in Gage?

Hilly: I say, Archie, old chap, have you made any arrangements to go to the next Informal?

Archie: Sure! Aii'n't I just sold two suits of clothes and a perfectly good mackinaw to "Old John?"

Draper (over the Mountain): "Do you know, you are the first woman I ever loved?"

Fair One: "That's quite evident."

What We Think of Each Other

Most chronic woman-hater:

After seven recounts, "Percy" and "Hank" still tie for first place, and "Sid" Masse, whom we considered out of the running, was easily second.

Man with the best line:

"Hank's" loquacity has pushed him to the front in this class also, while "Sty" Farrar and "Jim" Harper tie for second, leaving "Drape" a poor third.

Biggest Hell-raiser:

"Doc" Grant, "Pecker" Pike, and "Sty" Farrar. 'Nuff said!

Mother's boy:

"Frank" Marsh cried for this, so we gave him first, and by vote of the class, "Reg" Tower comes next.

Handsome man in the class:

"Jim" Harper wins by a large majority; "Drape" also ran.

Biggest grind:

Fuller, Upton, and Hill in the order named.

Best natured:

Jovial old "Grover" Cleveland laughed away all opposition.

Most popular:

Everybody voted for himself, but Towne voted twice and Melican made the biggest mark.

Most versatile:

While "Hank" was selling tickets for the Lotus Quartette in the grandstand, "Archie" reached first and "Hilly" stole second.

Most energetic:

"Nothin' to it" but "Skinny."

Laziest:

"Giggie," the Handcuff King.

Greatest social light:

"Fred" Hyde, "Hilly," and "Dick" Sears.

Most dignified:

As Frank Buell lives a few blocks nearer Fifth Avenue than "Bill" Haskell, their dignity ranks accordingly.

Done most for M. A. C.:

Lewis, Johnson, Melican.

Class "bonehead:"

"Chet" Bishop stands alone in his glory (?).

Class musician:

Ralph Tower — "your d— tootin'."

Biggest eater:

"Hilly," the cause of the Summer School famine, gets first, with "Grover" munching manfully in second place.

Biggest lady killer:

The baton wins over the sabre; in other words, "Hilly" beats "Fred" Hyde.

Most likely to succeed:

"Hank" Lincoln, Dan Lewis, "Red" Kennedy.

Best Athlete:

After shaking our athletes up in a hat, we drew them out in the following order: Johnson, Melican, and Dole.

Noisiest:

After the din had subsided, "Doe" Grant appeared freshest, with "Sid" and "Miguel" tied for second.

Most sarcastic:

Master knocker, "Squire" Buell; journeyman, "Doe" Grant; apprentice, "Peck" Pike.

Who I am:

Ask my "wife" — "DUKEY" LE DUC.
God's good man — "SKINNY" ROGERS.
None of your business — "PECKER" PIKE.
A worn-out student — DAN LEWIS.
A "buller" — "HANK" LINCOLN.
My wife's husband — "RED" KENNEDY.

Why I am here:

God only knows, and He won't tell — "CHET" SPOFFORD.
A missionary from Pennsylvania — "DON" WILLIAMS, alias "Joe Knowles,
The Mine Rat."
Because I didn't get stuck out — HARRY WHITE.
God knows — "AL" PRICE.
For four years' vacation — "DUKE" WELLINGTON.
By virtue of good fortune and help of a backbone — "HERBY" COLE.
To answer the roll for "Dan" — "JAKE" LEWIS.
To pick out the hymns for "Jake" — DAN LEWIS.
That's the question — "ANDY."
To study. (We doubt it!) — "HILLY."
To worry someone — "MERT" LANE.
For my health — "DOC" GRANT.
For better or for worse — "BILL" HASKELL.
Hand of fate — "FROSTY."

My Chief Ambition:

To make Phi Kappa 60 — "FROSTY."
To become a man and get a wife — "HANK."
To watch drill from the side-lines — "D" CANDE, "DON" WILLIAMS.
To graduate — "JAKE" LEWIS, "AL" CHASE.
To get a soft job — "DUKE" WELLINGTON.
To make "Archie" clean my room for inspection — "AL" PRICE.
To fool Billy — "SHRIMP" LOVEJOY.
Not to be a prof — VINAL.
To get along with the least study possible — LE DUC.
Good *Index* and no class tax — "SKINNY" ROGERS.
To "get by" — The HALL (room) boys, "JIM" HARPER, "MERT" LANE.
Girls! (Oh, you little devil!) — "HILLY."
To get a *good* feed at the Hash House — "DOC" GRANT.
To get my sheepskin (B. S.) — PATTERSON.
To sit in the "Senior section" in Chapel in 1915 — VENEER.
To be as smart as Sauchelli — PERRY.
To keep going ahead (cross country?) — UPTON.
Haven't any. (Why, William!) — "BILL" DORAN.

Heard Over the Mountain

"They tell me, Mr. Chase, that you are a student of human nature."
"Yes," admitted Al, "and I have learned a few things about women, too."

Birthplace of 1915 Index

OUR FOOTBALLISTS "Dolly" and "Giggie"

"Hank," selling books: "Can I interest you in 'Another Man's Wife?'"
Benedict: "No sir, I have troubles of my own."

Day (gushingly): Your eyes tell me a great deal.

Fair Co-Ed (icily): Your breath tells me a great deal more.

(Too bad, George.)

Major Kelly: Hereafter, while on the campus, cadets will wear the entire uniform or nothing.

The Modern Canterbury Tales

A knight there was and that a phony man,
That from the time that he first came to Aggie
Was known as Lefty Lewy. He loveth not students,
Nor ye Sophomore songs, nor barrings out.
Full worthy (?) howe'er, was he, and rose from Assistant
Dean to Associate Dean, to President temporary,
And lo, oncet attained he a public office
And though that he was worthy and he was wys,
And of his manners as meek as is mayde
He never yet, so it be sayde,
In all his lyf unto democratic mayor attainyd.
He was a ver parfait gentil knight,
But for to tellen you of his array:
His teaching, yea, was fair, but he was not gay,
And Sophs in his lecture room do say
That sleep was hard to overcome and not betray.

Our Democratic Mayor

The Captain was a stout carl for the nones,
Ful big he was of brawn, and large of bones,
A sworde and bokeler bar he by his syde.
And when he came, students did scatter wyde.
A blue cote had he, and when he spoke
All knew him for the Bloke.
His eyes like the hawk were keene,
And nothing was not by him seen.
Well coulde he scowl, and rage, and yell,
An' give some poor private holy hell,
And if one tries to scratch his cheek,
"Take that hand down!" he loudly shrieks.

There was also a Nounne, a Prioresse,
That of her smyling was ful simple an' so be said e'en coy.
Her greatest pride was e'er to watch the noble
"Lefty" with heart ful of joy.
And she was called by pupils there as Madamoiselle Goessman.
Ful wel she taught the English divyne,
Entuned from her throat ful semely.
And of "Lefty" spak she ful fair and praisingly,
Whilst pupils smyled and argued ful wyse to the contrary.
She let no words from her lips falle
That was not ful wel liked by alle.
Well could she tell of four books to reade,
Which same the pupils did not seme to hede,
'Till tyme came 'round to be a quizze,
Some were ready, and some, oh, lo!
Knew not vere much about that which was to knowe,
But curseth loude at "Lefty Lewe,"
Some even wishing him to slewe.

A Monk there was, a fair for the ministry;
"Peter Hickey," as known in history.
A manly man, to been an abbot able,
Ful many a booke had he on his table;
And when he spoke, men might his long arms behold,
Flung out in a manner almost bold.
Not that a monk when he is cloisterless
Is likened to a fish that is waterless,
But this is seen — a monk out of his cloister
Will give a lecture that is not worth an oistre.

A Chemist was ther with a forked beard,
And by some foolish ones even feared;
In proudness high upon his ice-cart sat,
Upon his head a Flanderish "Kelly" hat.
Well fair could he ride at a feverish rate
So not at some lecture to be over-late.
And when he that hat upon the shelf has hung,
"Why lo! he's bald," by alle 'tis loudly sung.

With us there was a Doctor of Physik,
In al the worlde ne was ther none him lyk
To speke of physik and of trig,
For he was grounded in these things alike,
And kept his pupils a ful great deale
In fright and terror by his magik "spiel."
He knew the cause of every hesitation,
Resulting in one's degradation.
Freshman, Sophomore, Junior, Senior;
Alle knew him for good or bad,
For some had flunked and some had passed.
The latter kneweth not how they their marks emassed.
Freshmen feared him for what was yet to come,
Sophomores trembled under his thumb,
Juniors, even those who got by, were still annoyed,
And Seniors knew well him still to avoid.

Also was ther a Zoologiste,
Doc Gordon, a ful solemne man,
And although claiming to be of human race
His was far from a cherubin's face.
His heavy brows stern, and without a beard;
Even children of that face were feared.
Wel loved he amoebae, skates, and worms,
And tried to teach of them by using monstrous terms.
Also for his sarcasm was he knowne
As wel as by the drawings he has showne.

Many others have we here
Whom we reverence or we jeer.
Of the few that we have told
You can judge the rest of the fold.

Amherst Class Officer Handcuffed by Captors

Lost—one class president. Fieder will please return to Massachusetts Agricultural College, Amherst. The missing man was either stolen or lost on his way. Will answer to the name of "Charley" Gould. Height 3 feet 6 inches, weight 165 pounds. Reward and no questions asked if returned safe.

WAS KIDNAPPED

[illegible]

There's • Vacant Chair

He was taken back in Amherst, where he was held under guard by the merchants' agents who at last succeeded in restoring an officer of the freemen's riot and preventing him from attending the annual banquet of the Exchange Club last night. There was a violent clash and it was the result of the clash that led to the arrest of the club last night. It was the result of the clash that led to the arrest of the club last night. NOTICE

Rules for the Social Union Room

1. Don't wipe your feet until you are on the rugs. We have brooms, a husky janitor, and a carpet beater. We can clean up as soon as you leave.
2. Make plenty of noise or some upperclassman might think that the Social Union was meant for study.
3. Bang the piano as hard as possible. We buy them by the dozen.
4. Grasp every opportunity to learn "rag" dancing so you can teach the girl back home.
5. Throw all newspapers and magazines on the floor. You will need the tables to sit on.
6. Be sure to spit in the fireplace. It adds greatly to the warmth and cheerfulness of the blaze.
7. Carry away any pictures, trophies, etc., that strike your fancy. They will make valuable additions to the decorative scheme of your room.
8. Leave all cigarette stubs on the floor. This will enable the janitor to get a line on all the cheapest brands and thus reduce the high cost of living.

The Great National Game as Played by "Pike's Pets" and "Strauss' Sticklebacks"

Glue started the game with some good stickwork. Cigar was in the box, with plenty of smoke, and Smallpox was catching. Horn played first base and Fiddle played second. Axe came to bat and chopped. Cigar let Brick walk, and Sawdust filled the bases. Song made a hit and Twenty made a score. Cigar went out and Balloon started to pitch but went right up in the air. Then Oats tried it but was wild. Grass covered lots of ground in the field, and caught Egg's foul. Joke made a hit, but Spider caught the fly; Bread loafed on third, while Meat was on the plate. Captain Fire got hot, and Manager Wire was incandescent, when Umpire Apple, who was rotten, roasted Peanut. Knife was put out for cutting first base; Needle thought he had the game sewed up, but he was yanked out. Lightning finished pitching the game, and struck out three men in the ninth. Corn was shocked and popped out a little fly. While Toad was catching it, Trombone made a slide. Ice kept cool till he was hit by a hot liner, then you should have heard Ice-cream. Cabbage had a good head and kept quiet. Organ played fast and put Light out in the fifth inning. Wind began to blow about what he could do, and Paint, who was on the bench, got stuck on himself. Jupiter Pluvius scattered rain-checks broadcast, Hammer began to knock, and the Trees began to leave. The bleachers whitened Cotton, who filled up on Gin and had to be carried home. Spots and Dirt bet heavily on the game, but Soap cleaned them up. Door said that if he had pitched, he would have shut them out.

Freshman Chemistry Examination, Feb., 1912

Take any twelve of the following ten questions:

1. Having a 500 c. c. beaker half full of H_2O , how much copper sulphate solution will it take to fill the beaker? Why?
2. Give the formula for Cohen's hair oil.
3. If "Al" Uminum has a strong affinity for "Mag" Nesium, how would "Nic" O. Tine unite with Ethyl Alcohol?
4. What is the color of blue vitriol?
5. Explain the disappearance of alcohol from the laboratory. How? When? For what purpose?
6. Where does the light go when you turn out a Bunsen burner?
7. Give Prof. Koplovitz's opinion upon the physical and chemical properties of pork.
8. (a) Does any one know where the Halogen family has moved?
(b) Did cute little Florine go with them?
(c) Did Alde-hyde? (Hint.) No, but Dyna-mite.
9. What is the scientific name for a hydrogen sulphide bomb?
10. Which has the more pleasing odor, violets or flowers of sulphur?

When first Lane went to see her
He showed a timid heart;
And, when the lights were low
They sat this far apart.

But, as their love grew fonder,
They learned to hug and kiss;
They knocked out all the spaces
And sat up close like this.

Sick, Sick, Sick

Sick, Sick, Sick

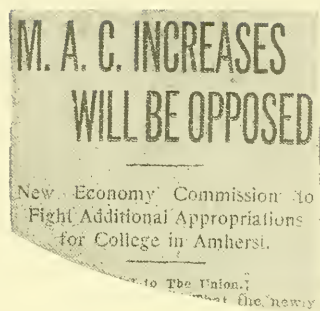

On thy cold, gray waves, O Sea!
And I wish that I could hold down
The things that arise in me.

Oh well for the fisherman's lad,
Who fishes at sea every day.
Oh well for the sailor lad,
For he sails in his boat in the Bay.

And the Stately Ship goes on
To its haven under the hill.
But oh for a touch of a foot on land,
For I fear that I am ill.

Sick, Sick, Sick,

At the foot of thy crags, O Sea!
But the "feed" that cost me five bones per
Will never come back to me.

I'LL FIND OUT WHAT
YOU KNOW AT THE
ZOOLOGICAL LAB.

Heard In:

Zoology.

"DOC" GORDON — "Who can tell me the highest form of animal?"

"BUNNY" CLOUGH — "The giraffe."

Agronomy.

"MAC" — "What can you tell me about guano?"

FARRAR — "Well, I'm not sure where it is, but it's a country in South America."

French.

BALZAC wrote: "Un corset de haute pressure," meaning "a tight waist."

"BILL" DORAN (translating) — "A high pressure corset."

Physics.

"BILLY" — "Now, if I draw a line here on the floor, take five steps that way and five steps this way, how far apart will I be?"

Illustrating gravity: "Gravity? Why, we use gravity every day of our lives. I've seen some of you fellows coming home from 'Hamp when you couldn't overcome gravity."

Tactics.

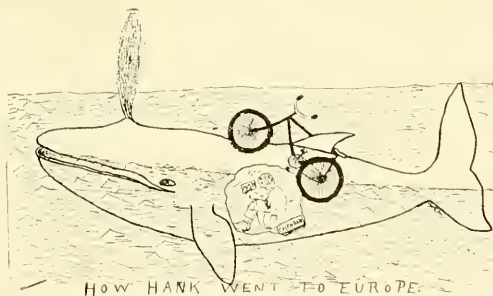

INSTRUCTOR — "In what battle was 'Stonewall' Jackson killed?"

STUDENT (uncertainly) — "His last."

Down town.

FRESHMAN (just off the farm; looking at grapefruit) — "Say, but aren't those oranges whoppers?"

SECOND FRESHMAN — "Yep, an' it would not take many of them to make a dozen, would it?"

Things a Young Man Should Know

1. M. A. C. offers superior educational advantages.
2. Prof. Hicks' smut lectures are sterilized.
3. If you want a d— good time, go to Smith; if you want a d— good wife, go "over the mountain."
4. Billy's bark is worse than his bite.
5. It's time to laugh when "Peter Hickey" springs one of his old ones.
6. Feminine local talent is good — to let alone.
7. There is a possibility of flunking even an elective course.
8. Although you may have been "some pumpkins" back home, you've got to show your classmates.
9. The "girl back home" doesn't forget as easily as you do amid new surroundings; stick to her and don't let the college — or "would-be college girls" — kid you along.
10. The college store is not the place to spend class periods.
11. Because "Rosie's" and "Rough House" begin with "R," the words are not synonymous.
12. The college orchard is not run solely for your benefit.
13. *Some* of the Profs have forgotten more than *you* ever knew.
14. Because the Co-Eds believe in "equal rights" as far as education goes, they are not necessarily suffragettes.
15. There is as good Informal material in Draper Hall as in Rockerfeller, Pearson's, "Dickies" or "Carrie's." Develop it!
16. The "lid" is not necessarily off after dark.
17. Such pictures as "September Morn" should have just as conspicuous places in your rooms as your mother would give them in your own home.
18. It is not necessarily true that "days were made for working," and nights for "hell-raising."
19. "College Spirit" is never sold across a rosewood bar, nor kept in bottles in that old suitcase under the bed.
20. An agricultural college is not the proper place to learn to sow "wild oats."
21. Your father is paying good money for your education. Make it an investment, not a speculation.
22. You will derive more benefit, if not more pleasure, by looking deep into your books rather than into the eyes of the girl over your desk.
23. Agronomy is not poker; you can't bluff "Sid."
24. You can live on Hash-House grub — if you can get an occasional square meal somewhere.
25. A wise look won't get you by final exams.

FINAL EXAMINATION

June 9, 1913

ENGLISH 4

1. Tell in detail the story of Browning's "Hank, The Hermit, In England."
2. From what was the following excerpt taken?
"O thou soul of my soul! I shall clasp thee again,
And on East Street be the rest!"
3. What are the "Idyls of the Sophs" taken from?
4. What three reasons did "Lefty Looie" have for selecting these questions?
5. Answer two of the following:
(a) Who was Miss Bisbee?
(b) Who was "Berlin?"
6. WALDEN — Why did "Percy" go to the woods, how long did he remain there, and why did he leave?
7. U— AND I — Who tells the story about U— and I? Who was Mr. Butman?
8. THE SCARLET DRESS — Give the names of the two principal characters in "The Scarlet Dress," and mention some important events in the life of each.

ANSWERS

2. Taken from Ralph Tower's succulent sonnet entitled "Down by the Hat Shop, Dearie."
3. "The Terrible Three" and Dante's "Inferno."
4. D—d if we know.
5. (a) She *was*, but she ain't.
(b) There was a man from Berlin;
He came with Itano, his twin.
He played with bacteria, fungi, and spores,
An' clected "Sty" Farrar to do all his chores!
6. Foolish question! Why does he wear a Watch and Ward badge?
7. (a) Say, if I find out, I'll make him scratch gravel, believe me, kid!
(b) Last seen expounding upon the theory that inanimate objects carried scarlet fever germs. Quick, Watso, the needle!
8. (a) "Doc" Grant and Adaline.
(b) That rainy Sunday afternoon when he called her up on the 'phone:
"Meet me by the old mill and have the paper-r-r-s."

Off to the Dartmouth Game

The Fight in The Chem. Lab.

Mis-Pickle, the cream of tartar queen, with the olive oil skin and the gunpowder complexion, saw *Black Jack* coming thru a-gate with *Ella-Ment*. This was enough to turn *Paris green* but *Mis-Pickle* knew that *Fatty Series* and she might steel away together to *Otto Coke's* whenever they had had an *aparite* and fill up on good old *Thomas Slag*. "If *Io-dine* with you *Dyna-mite* be jealous and if *Kero-sene* me what would *Ram-say*?" said *Mis-Pickle*. When they entered, *Sacch-arose* and offered "*Red*" *Lead* some rock candy and salt cake. Just then *Sulph-ites* with *Mike Röscoe* and *Alde-hydes* behind *Rub-Ium*. *Starch pastes Black Jack*

because *Alka-lies* about *Mag-Nesium*. While this is going on *Chrome-ate Spiegelissen Sugar of Lead*, and this gets *Spiegelissen* to his boiling point. *Black Jack* cast iron at *Wels-back* and *Porce-lain* where he was and *Mem-branes* him a sand-stone. *Chloro-forms* a line for the door and those still alive got some laughing gas to settle their nerves. "Enough for me," said *Mis-Pickle*, "I've lost all my clothes except my stone ware.

The Movies

The bill at the movies next week will present some unusual features in melodrama. Some of the best performers in the Moving Picture World will appear, and a first-class entertainment is assured. The following reels will be shown:

"PECKER" PIKE

Will present his pets, the "Sand Flea" and the "Owl," in the most wonderful animal reel yet produced. Don't miss this; it's the best ever.

"ROD" HALL, "GIGGIE" MEL-
ICAN, "SID" MASSE, and
RALPH MC LAIN in
"The Handcuff King"
or
"What Happened to Gould."

PAUL HILDRETH
Will render the following illus-
trated songs
"The Belle I Had at The Ball"
and "That Good Old Girl of
Mine"

While the reels are being
changed

HANK LINCOLN

Will give a stereopticon lecture
on
"The Idiosyncrasies of
George V" or
"What I Saw In England."

ENTIRE STUDENT BODY
in
"Our National Guard"
or
"Drill at M. A. C."

5 — FRESHMEN — 5
Will give a burlesque on
Annette Kellermann's famous
high dive and other aquatic
accomplishments.

"Passed by the National Board of Censorship."

"Getting By Shylock"

Better Late Than Never

Once upon a time it so befell
 Or so it was averred,
 That in the utmost depth of hell
 A merry laugh was heard.

Thereat for once the ghostly crew
 Forgot their teeth to gnash,
 And, trembling, asked each other who
 In hell could be so rash.

Up rose the Prince with darkening brow
 And, pointing with his staff,
 Bade one stand forth and tell him how
 In hell he came to laugh.

Then, from the silent, ghostly throng
 From out the fumes and smoke,
 A voice was heard, both clear and strong,
 And these strange words it spoke:

"I've laughed on earth at Billy's fun,
 'Doc' Gordon's wit was keen,
 But years ago their race was run,
 And grass on their graves grows green.

"I never expected thus to lift
 My voice among these folks;
 Excuse me, I've just got the drift
 Of 'Peter Hicky's' jokes."

MASS. AGRICULTURAL COLLEGE
FRESHMAN OFFICERS ESCAPE.

**Bold Tactics Enable First-Year Men
to Outwit the Sophomores.**

The annual banquet season for the freshman class opened yesterday directly after chapel, and in less than an hour the class officers were safe on their way to parts unknown in a big red touring car which had been hired for that purpose. It was only after the hardest kind of an argument with the "sophs" that the first-year men were successful. As it was, about a dozen supposed officers were kidnaped by the sophomores and taken away by automobile to be held until after the banquet is over. The rules governing the banquet require that the class president and at least three of the other officers must attend in order that the affair may be declared a success.

The freshmen immediately after chapel yesterday morning formed a solid mass about the officers and marched to Amherst Center. Here they entered a large alleyway and by blocking the entrance prevented the "sophs" from interfering when the officers were piled into a waiting machine, which sped out of the other entrance before the 1914 men knew what was going on. The freshmen have nine more days in which to have off the affair. The fact that such an early "get-away" was made by the officers would seem to suggest tonight or Monday night for the banquet. The class has maintained the utmost secrecy, so that neither the officers nor place of the banquet are known.

"PERCY" — Try to dodge him unless you have time to listen.

"DADDY" MILLS — There aint no such thing as a stand-in there.

KENNEY — Pay cash.

"GIGGIE" MELICAN — Smoke "P. A." and be generous.

THE PREX — Don't over-cut College Life and keep out of the orchard.

"DICK" SEARS — Be willing to roll cigarettes for him.

UNSOPHISTICATED SUFFRAGETTE (at football game) — "See how muddy the poor fellows are. Won't the scrubs have a job cleaning them up?"

"POP" — "I don't know, how old are you?"

"DOC" FERNALD (in Ent.) — "Mr. Sears, how many sexes are there?"

"DICK" — "Three."

"DOC" — "Three?" What are they?"

"DICK" — "Male sex, female sex, and insects."

Wouldn't it seem strange to see:

Ralph Tower not promenading with a Co-Ed?

Buell without an appropriate (?) comment?

"Doc" Grant not making a noise?

Melican in a hurry?

Epitaph

"The rainbow comes and goes,
And lovely is the rose.
The moon doth with delight
Look 'round about her when the heavens are bare.
Waters on a starry night
Are beautiful and fair.
The sunshine is a glorious birth;
But yet I know, where'er I go,
That there hath passed away a glory from this earth."
Never, Never, Never, No More.

*There the world is
at your feet*

THERE the radiant beauty of the landscape reveals itself in infinite variety. You see mountains like great billows, with deep, far shadowy valleys between; long uplands with slender spires rising here and there from clustered homes; green meadows, fallow fields and stretches of woodland; busy cities and towns whose sounds of human toil cannot penetrate the repose of this grand height; the "Long River," with a history overflowing with legend and tradition, sweeping proudly by through mountain pass and lovely banks to the sea, winding for many a mile within the boundaries of this noble outlook.

Massachusetts Agricultural

THE Massachusetts Agricultural College is a public service institution, the function of which is to benefit the agriculture and rural life of the state and incidentally that of the nation.

In the fulfilment of its mission the College undertakes the work of Investigation, Resident Instruction and Extension Service.

INVESTIGATION follows three distinct lines: (1) scientific research, through which are discovered new laws governing the growth of plants and animals; (2) experimentation, which seeks to ascertain the best methods of applying science to practice; and (3) the agricultural survey or inventory of agricultural conditions and possibilities.

The purpose of INSTRUCTION given to resident students is to prepare them for the agricultural vocations and also to train them in the principles of good citizenship. Students pursuing the regular four years' course may specialize in any of the following named departments:

Agriculture	Floriculture	Economic Entomology
Agromony	Forestry	Plant Physiology and Path-
Animal Husbandry	Landscape Gardening	ology
Dairying	Pomology	Microbiology
Poultry Husbandry	Agricultural Chemistry	Agricultural Education

Undergraduate courses are also offered in a large number of departments the work of which is not arranged as a "major."

The Graduate School admits college graduates for advanced study in agriculture, botany, chemistry, entomology, horticulture, mathematics, microbiology, veterinary science, and zoology.

College :: Amherst, Mass.

THE task of the EXTENSION SERVICE is to disseminate agricultural knowledge to all people of the state having rural interests, and to assume an attitude of leadership or of co-operation in various activities, educational, social or economic, which tend to benefit agriculture and country life. Thousands of persons are directly reached each year by the Extension Service. Some of the types of work organized by this branch of the College are:

Winter School of Agriculture
Summer School of Agriculture
Farmers' Week
Conference of Rural Social Workers
Correspondence Courses in Agriculture
Itinerant Schools of Agriculture

Educational Exhibits
Demonstration Orchards
Boys' and Girls' Clubs
Traveling Libraries
District Field Agencies
Lecture Courses

Five Facts of Interest About the Massachusetts Agricultural College

1. It trains men for vocations not yet overcrowded.
2. It offers courses of study in 26 departments of academic instruction covering the fields of Agriculture, Horticulture, Sciences, Humanities, and Rural Social Science.
3. Its enrollment of students of college grade exceeds 600 in number.
4. Its field of service is the entire state.
5. Its educational advantages are practically free.
